RESSED

# HOPE FOR END OF MEXICAN WAR.

## Diaz to Confer Regarding in Cabinet Offices.

President Diaz is expected to confer with his cabinet regarding the Mexican situation.

## Will Present Executive With Explanations of Revolutionists and Basis May Be of Hostilities Satisfactory to Both Adversary Element.

Recorded in Mexican newspapers to the proposal of the Mexican Ambassador that all classes in Mexico unite for the promotion of national unity.

The insurgents have taken the stand that their operations have proven they are willing to risk a great deal to secure the adoption of certain reforms in the government, and falling in this they will continue the strife. Besides the proposals, which Senator Limantour is known to be bearing to President Diaz, it is reported that the wishes of leading insurgent sympathizers in various parts of the republic have become known to President Diaz and will play a small part in the reorganization of his cabinet.

The disaffection in Mexico though most conspicuous in Chihuahua, has not been confined to that State, and serious outbreaks in other States have been prevented by the promises of early changes in administration.

A peculiar relationship of members of the cabinet to the internal administration of the States has contributed to the political situation in Mexico. City and various combinations and tickets have been made up and have been privately suggested. The troubles in Yucatan and Chihuahua, it is said, will directly influence probable changes in the cabinet. The opposition in Chihuahua may mean the displacement of Senator Creel from his post of Minister of Foreign Affairs, while Senator Molina, Minister of Public Works, probably will be asked to resign because of opposition to him in Yucatan.

Senator Corral's health, according to reports, is improving.

# Los Angeles This Morning

Los Angeles, March 19.—(Exclusive Dispatch.) The morning was clear and bright, with a light breeze from the west. The temperature was in the upper 60s.

At 8 o'clock the city was quiet, with only a few cars on the streets. The business district was beginning to stir, and the first signs of the day's work were visible.

The morning papers were distributed, and the city was beginning to take on its usual appearance. The streets were clean and well-maintained, and the buildings were in good repair.

# WOMEN BAN FARM WORK.

## Gentle Sex of Nebraska Form Societies Against Milking Loving Kine.

(BY DIRECT WIRE TO THE TIMES.)  
GANDY (Neb.) March 19.—(Exclusive Dispatch.) Encouraged by the recent decision of Judge Otto of Brule, who decried the rights of husband and wife relative to work on the farm, Nebraska women are declaring themselves in an uncertain manner. All through this section of the State the women have organized clubs and determined that henceforth farm work shall be done by the men, else it will go undone. Within sixteen miles of this town they have an organizer, a Mrs. Truman of St. Paul, Minn., and have ten societies with an aggregate membership of 200. The women sign but one pledge, and that is that they will not milk cows, feed cattle, or work in the hay and corn fields.

# TARGET PRACTICE TO START.

## WASHINGTON, March 19.—Secretary Meyer, with a few official guests, left Washington on the Dolphin tonight, for Tanger Sound, in Chesapeake Bay, to witness an attack on the battleship San Marcos (formerly the U.S.S. Texas), by the big 12-inch rifles of the New Hamp- shire.

# TOM L. JOHNSON DYING.

## Former Mayor of Cleveland Is Not Rallying from Relapse—End Expected Momentarily.

(BY DIRECT WIRE TO THE TIMES.)  
CLEVELAND (O.) March 19.—(Exclusive Dispatch.) Late bulletins from the bedside of Tom L. Johnson tonight, say that his condition is unchanged. This means, according to his friends, that he is not rallying from the serious relapse he suffered a few days ago. It was announced this morning that his death might be expected within a few hours, but Dr. Oscar Thomas, chief of the staff attending him, said tonight there was no immediate danger. Dr. Thomas, however, admitted that there was not the slightest change in the condition of his patient in the last two days, which is not considered a favorable sign.

The relatives of Mr. Johnson have all been summoned in anticipation that his present illness, which is really a continuation of several breakdowns, may result fatally. Physicians have ordered that the patient be kept absolutely quiet and his friends are not admitted, as the excitement would aggravate his nervous condition. Even the most optimistic of friends admit he is very close to death.

# CHINA DELAYS ITS REPLY.

## Ultimatum from Russia, Demanding Closer Adherence to Treaty, Has Not Been Answered.

(ASSOCIATED PRESS NIGHT REPORT.)  
ST. PETERSBURG, March 19.—China has not yet replied to the last Russian note, which amounted to an ultimatum, insisting upon a closer adherence to the provisions of the treaty of 1851.

A despatch to the Novos Vremya from Mukden says an attempt by the Chinese police to enter the quarantine lines has led to serious conflicts with the Japanese guards at Pashan. One Japanese and one Chinese were killed and many on both sides wounded.

# NEGRO LEADER GETS BEATING.

## Booker Washington the Victim.

## White Janitor Says Colored Exhorter Became Gay With His Wife.

## Police Chase Noted Educator Through Streets of New York; Lands in Jail.

## Husband Held on Charge of Assault and Victim Is Sent to Hospital

(BY DIRECT WIRE TO THE TIMES.)  
NEW YORK, March 19.—(Exclusive Dispatch.) Booker T. Washington, was brought into the West Sixty-eighth street Police Station tonight, by a policeman who had chased him up Central Park West after a scuffle in a hallway at No. 114 West Sixty-third street.

Albert Ulrich, a carpenter, was arrested on Washington's complaint, charged with assault.

Ulrich told the police that he had

He said that he looked at the names on the bells in the vestibule of No. 114, which is an apartment-house, and was unable to find anyone named Smith.

He said that he may have stayed in front of the apartment for a few moments, and that he went back several times to look for Smith. Then, he said, Ulrich ran out of the apartment-house vestibule and came at him with a club.

Before Mr. Washington was taken to the hospital Mrs. Ulrich identified him as the man who had spoken to her in the hallway of the apartment-house. She said Mr. Washington had said: "Hello, sweetheart" to her, and that she had seen him walking up and down in front of the house for some time before this happened.

# RAIN WILL BE GENERAL.

## Washington Forecast for Week Says Precipitation Will Be Attended by Average Temperature Over Country.

(ASSOCIATED PRESS NIGHT REPORT.)  
WASHINGTON, March 19.—The indications for the coming week, according to a bulletin issued today by Chief Moore of the Weather Bureau, are that it will be one of average temperature and well-distributed precipitation over the greater part of the country.

Abnormally low barometric pressure settled weather and general rains in the Pacific States and Western plateau regions. The principal disturbance will appear on the Pacific Coast Monday or Tuesday, pass Eastward over the Middle West about Wednesday and reach the Atlantic States Thursday.

This disturbance will be preceded by rising temperature, attended by unsettled weather and with snows in northern and parts in the middle and southern districts, and will be followed by a change to considerably colder weather.

# DRIVE PICKET OUT OF CITY.

## Vigilantes' Move in Bakersfield.

## Plug-Ugly Who Broke Jaw of Non-Union Worker Is Railroaded Out.

## Indignation at Unionite Out- rages Reaches Boiling Point at Last.

## Brave Campaign of Iron Works for Open Shop Is a Sure Winner.

(BY DIRECT WIRE TO THE TIMES.)  
BAKERSFIELD, March 19.—(Exclusive Dispatch.) The most extraordinary demonstration against labor union aggressiveness of recent years in California took place here this morning.

Bakersfield has always been a red hot, copper-riveted, air-tight union town and has suffered from it; but at least the merchants and business men have determined to throw off the yoke. They have formed a Vigilance Committee and today they railroaded out of the city a union picket, accused of breaking the jaw of a non-union worker. The city is wild with excitement. Many threats are heard on both sides.

The cause of it all is Hugh Garrity, a unionite, employed as a picket and accused of a felonious assault on a Bakersfield iron works employee. Garrity has been driven out of town by a citizens' committee representing the Merchants' Association. Garrity was taken to the Southern Pacific depot at 2 o'clock this morning and placed aboard the Owl with a ticket for Los Angeles. (Why was he sent down here?—Ed.) The merchants say that he went on his own volition, but Garrity declares he went under pressure. He is a blacksmith's helper.

The merchants had a warrant issued by Justice Flornoy, charging Garrity with felonious assault. They gave him the privilege of quietly leaving the city or giving bail. He was arrested in his room at the Palace Hotel, a crowd of 500 persons, largely union men and sympathizers, following the armed committee of the merchants when they went to Garrity's room and placed him under arrest.

It is alleged that he broke the jaw of a non-union employee of the iron works in a fracas on Thursday night and that on another occasion he beat up a non-union man.

The strike at the works has been going on for six weeks. Over 100 men are out, but Manager E. A. Raine is making a gallant fight and in running his plant successfully with non-union help. The works are picketed, the employees rooming and boarding under guard. Henceforth the works will be non-union. The strike is a failure and the union will never control this shop again.

On hearing of the assault by Garrity, the merchants promptly investigated it and on being assured of the facts, endeavored to have Garrity leave without arrest but he refused.

Sheriff Baker said today that he would revoke the commissions as officers issued to the merchants implicated in the arrest of Garrity.

"I was hoodwinked," states the Sheriff. "If Garrity was held on a warrant he should have been jailed and prosecuted by the law. The merchants took matters in their own hands and I understand forced him to leave under threat. It was the act of a vigilance committee."

It was reported on good authority today that a union picket named Wright had received notice that the railroad trains are still running.

Bakersfield is sick and weary of labor union intolerance and tyranny. The movement for the open shop is on hand in earnest and is spreading to other branches of industry. It is a question which will become an open-shop city—Bakersfield or San Francisco. The indignation of the citizens of Bakersfield over the outrages of labor union bosses and plug-uglies has certainly reached the boiling point.

Action should be taken at once to compel this fellow Garrity to leave Los Angeles. The outrages of Bakersfield certainly should not be tolerated here.—(Editor Times.)

# LOS ANGELES MEMBERS NOW IN HARMONY ON REAPPORTIONMENT.

## Special Meeting Results in Reaching Working Basis on Which All Can Pull Together—Legislature Making Plans For Adjournment March 27—Caminetti Will Not Make Fight on Los Angeles Tideland Bills.

By W. R. WILLIAMS.  
(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, March 19.—(Exclusive Dispatch.) In an effort to reach unity of action on reapportionment, the entire Los Angeles delegation met this morning in the room of Assemblyman Cogswell, chairman of the Ways and Means Committee, and reached a working basis. Heretofore the delegations in each house have been working without any understanding, and as a result the division has minimized the voice of Los Angeles in the reapportionment measure.

A steering committee composed of Senators Thompson, Bell and Hewitt, and Assemblymen Randall, Hinshaw and Cattell, was appointed to take charge of reapportionment in each house and to unite in the division of Los Angeles county and city into sixteen new Assembly districts, which are to be chosen in pairs for Senatorial districts.

It happens that all the members of the steering committee are members of the regular reapportionment committees and that a majority is opposed to the plan of making most of the Assembly districts half city and half county, thus giving the city control.

Randall's reapportionment is on the special urgency file of the Assembly tomorrow, but may not be pressed by its author until Tuesday. It is no longer a possible scheme of reapportionment, but it is a good tactical advantage in the fight that is to be on all week, probably, it may be passed Tuesday and held in the Senate while the real scheme is worked out.

# RANDALL'S BILL BAD.

Randall's measure is considered impossible, because the lawyers of both houses who have looked it up, say it would be risking the validity of the law under the Constitution to give either San Francisco or Los Angeles so much less representation than their population gives them. Randall reduced the representation finally four in each place. This is regarded as beyond the limit of the Constitution.

The support of Randall's measure

found Washington peering through a key hole in an apartment at that address Washington has two or three scalp wounds and was taken to Flower Hospital for treatment.

This is the story Ulrich told the police tonight.

He said that his wife had left her rooms at about 9 o'clock to give one of her dogs an airing. She found in the hallway a negro who smiled at her as she passed out. He was well-dressed and she was attracted to him. When she returned when she came back, and again bowed, she said.

Mrs. Ulrich presently set out again with another dog and as she passed the negro he again smiled she thought, and when she came back he addressed her in a familiar manner. When she got inside she told her husband what had occurred.

Ulrich put on his coat and passed out of the apartment into West Sixty-third street, making the negro still in the hall. Ulrich talked a few minutes with some friends on the street. After a few minutes' delay he returned and then, so he told the police, he found the negro peering through a key hole into the apartment of Frank Resett, a chauffeur, who has rooms on the ground floor.

"What are you doing here?" Ulrich says he asked him.

NEGRO SHOWS FIGHT.

The negro made no reply, but struck out, badly missing Ulrich. Then he ran past him out into West Sixty-third street. A number of Ulrich's friends, who were still in the street, took up the chase. The negro ran toward Central Park West and then started north, with the crowd after him. He fell once, picked himself up, fell again and then a third time. Policeman Kierney took up the chase, captured the negro and took him to the West Sixty-eighth street station house.

Ulrich, who was alone, wanted to make a charge of unlawful entry against Washington, but the charge was not entered. Ulrich was held on the charge of assault.

In Flower hospital it was said that the patient has a cut over his left ear, but that he was able to leave the hospital soon after he was cared for.

Booker T. Washington is staying at the Manhattan Hotel. He had not returned at midnight.

At the West Sixty-eighth Street Police Station, Mr. Washington told Lieutenant Quinn who was on the desk, that he had been in town since Saturday. He said that he received a telegram yesterday from the auditor of the Tuskegee Institute, D. E. Smith, asking him to go to the home of Smith's cousin, also named Smith, at No. 114 West Sixty-third street.

BOOKER'S EXPLANATION.

He said that this evening he first went to church and got to the Sixty-third street address about 8:15 p.m.

# TARANTULA BITE FATAL.

## Woman's Arm Swells from Hand to Elbow and She Dies Shortly After- wards.

(BY DIRECT WIRE TO THE TIMES.)  
WOODLAND, March 19.—(Exclusive Dispatch.) Mrs. Penelope Day is dead at her home, three miles southwest of Woodland, from effects of the bite of a tarantula.

Last Wednesday night she felt on her hand the bite of some insect which she didn't see, and as the pain soon passed away she paid no attention to it at the time. Thursday morning her arm was swollen from the hand to the elbow and as the swelling and pain continued to increase a physician was summoned.

Believing that the swelling was due to a wound from a spider, she began a search for tarantulas and soon discovered that there were many of them in holes in the yard.

# LIMANTOUR AT HOME.

MEXICO CITY, March 19.—Minister Limantour and "art" in the private car Hidalgo, traveling as a special, left Monterey at 7:30 a. m. The Hidalgo was unexpectedly dropped from the south-bound train last night at Monterey, the reason announced being the slight illness of Mrs. Limantour.

# Mexican Rebels Held for Trial.

NACO (Mex.) March 19.—Eight rebel prisoners, captured at Agua Prieta during the battle last Sunday, were brought here today. They will be taken to Cananea, where it is believed their trial will take place.

# Our River?

# CULT HEADS FOR LOS ANGELES TO BATHE IN SACRED STREAM.

(BY DIRECT WIRE TO THE TIMES.)

FINDLAY (O.) March 19.—(Exclusive Dispatch.) Asserting that the voice of Jesus has called them, twenty-six "Revived Spiritualists" left this morning for Los Angeles. They expect to remain until they receive the command of the Lord to start for Jerusalem. When the party reaches Los Angeles all the members will live in one house. All the money will be turned into one treasury, in which each member will have an equal interest.

It is the belief of the Revived Spiritualists that, within the next decade, hosts from all over the world will appear against them in battle array and that a mighty war will ensue. The

# be victorious and blot out forever the forces of darkness.

The new cult is made up of the most part of Findlay residents. It is well supplied with funds. One of the leaders, Charles W. Hume, gave up a good position with a railroad company here to join, and his mother recently sold a \$6000 farm in Michigan for \$1000 in order to get all the money she possibly could for the journey west.

Mrs. William E. Hurley is the founder of the organization and has husband as the leader.

When the party reaches Los Angeles the members will bathe in the waters of a "sacred stream" which according to the leaders, has been revealed to them. Then they will await the sum-

**REBELS DROP  
HONESTY MASK.****Vandalism and Open Theft  
Now Order of the Day.****Stores Looted and Non-Com-  
batants Put Over Board.****Americans Suffer With Their  
Mexican Neighbors.**

[ASSOCIATED PRESS NIGHT REPORT.]  
EL PASO, March 19.—According to reports received today from what are considered unquestionable sources, vandalism, the commandeering of food supplies by lawless persons and interference with the activities of business people are growing in Northern Mexico, to such an extent that thousands of non-combatants, including many Americans, are leaving the country. Americans are allowed to leave freely, but not without being detained by bands of armed men, and in some instances deprived of their valuables. Cattle and horses are being taken without regard to ownership, and many stores have been raided and left empty. It is given out that depredations are not contained by the insurrecto army, but are performed by a lawless element not acting in accord with the revolutionary movement.

An American, who is a former city official of El Paso, arrived here today after a nine-day trip on horse back from Guerrero Minaca, coming north direct through the heart of Chihuahua state. He said:

**HELD UP OFTEN.**  
"We were frequently held up, but when it was found we had no arms or valuables, we were allowed to proceed. At Babicora, we found that J. C. Hayes, the manager of a ranch, owned by an American, had been arrested by the insurgents, released and taken to safety. Last Thursday near Casas Grandes, we came upon the outpost of Francisco I. Madero's insurrectos. By them we were treated with courtesy, and were told if we were molested it would be against the desire of the revolutionists, as they were eager to respect property rights. Further north, we were told by the ranch holders that their cattle and horses were being taken by the hundreds. The storehouses in the whole town were empty. Mail addresses confirm reports that Americans are leaving. A letter from Monterey dated March 15, stated that John R. Pritchett of Austin, Tex., a railroad surgeon, left Durango, fearing the insurrectos would attack the town. Raymond Bell of Des Moines, Iowa, and his wife, after receiving word that ranches near his place at Durango were being depleted of cattle, left for the border."

**THEFT ON HUGE SCALE.**  
American cattle men who have come to the border report that 100,000 head of cattle, which had been contracted for delivery in the United States from Mexico in April will be prevented by the insurrectos from being brought across the border.

A report that an important battle had been fought near Casas Grandes, that Col. Bahago, the Federal commander, had been captured by the insurrectos in a canyon called Chocoma Pass and that the insurrectos had agreed that the Mexican Northwestern Railroad was to be opened to Juárez as soon as Casas Grandes was taken by the insurrectos, reached here, but was not confirmed.

An American, who passed Casas Grandes said that although Madero was in the vicinity, no fight had taken place.

Mrs. Charles A. Anderson of Chipewah Falls, Wis., Mrs. C. A. Lynch of Albuquerque, Ariz., and two women of El Paso, reached here today from points in the "war zone." They asserted the non-combatants were enduring great suffering and were anxious that the war be speedily ended. Almost all Americans, they asserted, were preparing to leave.

**ARMIES REST ONE DAY.**

United States Vessels in Harbor.  
Troops and Warring Forces in Mexico Idle for Relief Spell.

[ASSOCIATED PRESS NIGHT REPORT.]  
SAN DIEGO (Cal.) March 19.—Sunday was a day of rest in the army camp, on the cruizers at anchor in the harbor and among the warring forces in Mexico.

Admiral Thomas had nothing new from Washington and he is busy engaged in preparations for landing within halting distance of the fleet 500 marines for camp duty on shore for a few days.

Gen. Bliss and his staff were without business except for routine matters over the wire from the outposts. Capt. Evans, on the border, reported that the Mexican Federal troops rested all day at Tecate, Mex., two miles south of the line. These troops now number about 125 men. He also reported that the present below Campo a force of seventy insurrectos, and that these are apparently waiting for another body of less than 100, reported to have passed through Pichicho Pass, westbound, last night. The two should effect a junction Monday morning at the latest. The Mexican Federals have broken up trenches at Tecate.

The Collier Prometheus is expected Sunday night from Seattle, with 7000 tons of coal.

The collier Saturn is expected Monday or Tuesday with 2500 tons, and the Glacier, from San Francisco, with supplies and stores any time within the next two days.

The Yorktown reported from Acapulco, Mex., by wireless, having stopped for mail and fresh vegetables, on her way to Panama.

**TORRES TO GET POST.**

Mexican Consul at Port of New Orleans Is Gone to Assume Command in Federal Army.

[BY DIRECT WIRE TO THE TIMES.]  
NEW ORLEANS (La.) March 19.—(Exclusive Dispatch.) Thomas Torres, Mexican Consul at the Port of New Orleans, is gone. Within a few days, however, the name of Torres will be prominent in the newspapers if the general's assumption of command as agent in the Mexican Federal army, he has been announced to Mexico City by President Erazo, and after conference with the proper division of the army.

Torres, although a young man, is well known in his own country. Ex-

**HOPE FOR EARLY END.**

(Continued from First Page.)

cent advice, indicates that he will abandon public life and seek recuperation in Europe. This will leave a vacancy in the vice-presidency which may not be filled, as the Minister of Foreign Affairs during the vacancy in the office also is invested with the vice-presidency.

Strong influences are at work regarding the exact position that Senator Limantour shall occupy in the Cabinet. Personally, it is known, Limantour prefers to remain Minister of Finance, and many bankers and financiers who have interests in Mexico are anxious to have him thus continue, but there are other factors, it is said, who think Senator Limantour can exert a more effective influence for tranquility in the republic from the post of Minister of Foreign Affairs and virtual vice-president.

These are considerations that are making President Diaz's task a difficult one. It is hinted that among the new members of the Cabinet may be some who were politically affiliated with the insurrectos, and growing in Northern Mexico, to such an extent that thousands of non-combatants, including many Americans, are leaving the country. Americans are allowed to leave freely, but not without being detained by bands of armed men, and in some instances deprived of their valuables. Cattle and horses are being taken without regard to ownership, and many stores have been raided and left empty. It is given out that depredations are not contained by the insurrecto army, but are performed by a lawless element not acting in accord with the revolutionary movement.

**FEDERALS NOT DEFEATED.**

Reports Telling of Annihilation of Troops Under Col. Bahago Denied by Americans of Veracruz.

[BY DIRECT WIRE TO THE TIMES.]  
EL PASO (Tex.) March 19.—(Exclusive Dispatch.) Reports of a battle at Chocoma Pass, near Casas Grandes, Mexico, on Tuesday and Wednesday, in which the insurrectos, commanded by Orozco and Madero, are said to have annihilated the Federal command of Col. Bahago, 600 strong, is printed here with minute details. However, Americans of unquestioned veracity arriving here this afternoon, who came through Chocoma Pass on Wednesday, declare that no insurrecto or Federal was in sight and no battle had been fought.

No trains were operating west of Chihuahua when they left Minaca. They spent last Sunday night at the Babicora (Hawit) ranch, and next day met J. C. Hayes, manager, who has been arrested by the insurrectos, released and taken to safety. Last Thursday near Casas Grandes, we came upon the outpost of Francisco I. Madero's insurrectos. By them we were treated with courtesy, and were told if we were molested it would be against the desire of the revolutionists, as they were eager to respect property rights. Further north, we were told by the ranch holders that their cattle and horses were being taken by the hundreds. The storehouses in the whole town were empty. Mail addresses confirm reports that Americans are leaving. A letter from Monterey dated March 15, stated that John R. Pritchett of Austin, Tex., a railroad surgeon, left Durango, fearing the insurrectos would attack the town. Raymond Bell of Des Moines, Iowa, and his wife, after receiving word that ranches near his place at Durango were being depleted of cattle, left for the border."

**SITUATION IS CRITICAL.**

Siege of Chihuahua Ordered and Large Body of Rebels Encamped North of Terrazas.

[BY DIRECT WIRE TO THE TIMES.]  
TERRAZAS (Mex.) March 19.—(Exclusive Dispatch.) Matters in the revolutionary situation in this section are rapidly approaching a crisis. A siege of Chihuahua has been ordered, and no supplies are allowed to enter the Capital of the State.

About 600 rebels are in camp north of Terrazas. Large bands of revolutionists visit Terrazas daily, but they are always peaceable when in the city. They pay cash to the stores for whatever they get. A few days ago they burned every railroad bridge between this place, and the next station north of here a force of 200 men cut the telegraph wires.

No communication could be had out of here until today, when a detail of Federal cavalry from Chihuahua came and, without warning, opened fire on women and children who were watching them. Later, some of the women were degraded. When the commanding general learned of this, he dismounted and sent the men after the rebels. These troops were afterwards waylaid and annihilated by the rebels.

It is reported here that Gen. Navarro, who bayoneted wounded prisoners at Malo Pass, has been captured. Since President Diaz proclaimed martial law, the rebels show no quarter to Federal troops, although they do not molest non-combatants.

**See a Limit.**

**PRESIDENT'S MESSAGE TO DEAL  
WITH TARIFF AND RECIPROCITY.**

*Expresses Desire to See Revision of Wooten Schedules, But Hopes to See No Action Taken by Special Session of Congress Until Board Has Completed Investigations. Frankly Expects Democrats to Aid in Work.*

[ASSOCIATED PRESS NIGHT REPORT.]

COLUMBIA (S. C.) March 19.—(On board Taft's train.) President Taft, according to present plans, will confine his message to the extra session of Congress to the Canadian reciprocity matter and the establishment of a permanent tariff board. He is convinced the country desires and ought to desire, a further revision of several schedules of the Payne-Aldrich act. He feels the wooten schedule is indefensible, it is said, and is anxious it shall be revised soon.

The President is equally convinced that the country desires that revisions of the tariff be made in the light of scientific information which it is the duty of the tariff board to collect. It is believed he rather inclines to the idea that no schedule should be revised upon which the tariff board is not ready with its information.

He has directed the temporary tariff board to make a report on the wooten schedule by December 1. Personally he would like Congress to wait until that time and not attempt to revise any schedules at the extra session. He will give the matter further consideration, however, after he reaches Washington. If Mr. Taft's wishes are met, the extra session will devote itself to reciprocity and the government tariff board second, postponing the revision of the textile schedules until the tariff board committee completes its work December 1.

In addition to the President's instructions that the wooten schedule shall be ready, the appropriation bill, carrying a fund for the tariff board, contains a provision to that effect. This does away with the possibility of delay, he believes.

President Taft frankly expects the Democratic House and the newly Democratic Senate to aid in his work.

**MEMBERS NOW IN HARMONY.**

(Continued from First Page.)

**SPECIAL ORDERS.**

In the Assembly the new bill requiring absolute secrecy as to grand jury proceedings and providing heavy punishment for disclosure without permission; the Rosberry bill, changing the number of peremptory challenges to equality between the defense and the people in criminal cases; the Boynton bill permitting five-sixths of a jury to render a verdict in all cases except life imprisonment or death; and Stuckenbruck's meadowlark bill are on special order file.

In the Senate the Governor's short ballot measure are on the file for a final vote. It is believed only those making the office of State Printer and clerk of the Supreme Court appointive will stand a chance of passage.

The Los Angeles tide lands bills are also at the head of regular file and Senator Hewitt will press them with every expectation that they will pass without opposition. Caminetti, who fought them Saturday, says he opposes only the Oakland bills.

**ALIEN EMPLOYMENT FORBIDDEN.**

Fitzgerald Measure Affecting Los Angeles Aqueduct Passes House But With Saving Amendments.

[BY DIRECT WIRE TO THE TIMES.]  
SACRAMENTO, March 19.—(Exclusive Dispatch.) Assemblyman Fitzgerald's bill forbidding the employment of any person on the public work of any city, county or State who is not a citizen of this country, amended to permit the employment of those who have declared their intention of becoming citizens, passed the Assembly yesterday after a bitter fight to strike out the amendment. It was a measure that directly affected the Los Angeles aqueduct work, where many are employed who have taken out only their first papers. The amendment was sustained, 32 to 25.

In the Senate Assemblyman Kennedy's measure requiring the observance of certain rules in the construction of overhead lines for the transmission of electrical current and manholes for electric conduits, was passed without much opposition. The bill has been so amended that it is not seriously objectionable to the electric companies, particularly as it does not apply to new work until six months from its signature by the Governor and no reconstruction of old work is required for five years.

The Fitzgerald bill requiring any employer who may have a strike or lockout to advise the board of labor and new employees passed under a call of the Senate by Tyrrell of Oakland. Wright of San Diego promptly moved a reconsideration and the bill will probably be defeated next week.

**LOCAL TRAVELERS.**

Los Angeles and Southern California People Who Are Registered at Hotels in Other Cities.

## MILLIONS NOT FOR HER.

Mrs. Maybelle Gilman Corey Not Entitled to Fortune, Rules Court in Will Contest.

(BY DIRECT WIRE TO THE TIMES.)  
SAN FRANCISCO, March 18.—[Exclusive Dispatch.] Judge Graham yesterday dissipated the \$2,000,000 which Mrs. Maybelle Gilman Corey, wife of the former president of the United States steel company, recently announced in New York, just before she sailed for her new home in Paris, that she had taken to her.

With the same stroke of the pen the court annulled the claims of the former president's brother, Monroe Gilman of Oakland, and of his sisters as heirs in shares to the same of assignments.

The court holds valid the assignments of the heirs of the late Charles Gilman to Attorney W. G. Deal of all the right and title to Kern county oil lands, which, in various suits against Deal, they have sought to have set aside on the grounds that their signature to the process of assignments were secured through fraud.

The court finds that Deal was not guilty of fraud when he had the Gilman children sign over their interests for considerations ranging from \$200 to \$250 each. The Gilman heirs, headed by Monroe Gilman of Oakland, discovered that they might have secured much larger sums for their signatures and brought suits in the Superior Court to have their assignments set aside on the ground of alleged fraud and misrepresentation of the part of Deal.

## WIRELESS TO SWEETHEART.

Cook Talks to His Girl From Port Hole of Steamer and Gets Replies by Own Invention.

(BY DIRECT WIRE TO THE TIMES.)  
PORTLAND (Or.) March 18.—[Exclusive Dispatch.] By means of a wireless telephone of his own invention, William Goodwin, cook of the steamship Falcon, held a conversation with his sweetheart while the freighter was passing the latitude of her home at Gualala, Cal., Thursday evening. Goodwin says he made a similar machine for the young woman and now he can talk to her from the port hole of the ship.

"As yet, I have not gotten the machine perfected," said the cook this morning, "and for that reason I do not care to go into the details of my invention, which I intend to have patented. But in conversing with the young woman I was convinced that my new telephone wireless apparatus is just about perfect. I could hear her distinctly and she had no difficulty in picking up everything I said."

When the talk took place across the water the Falcon was seven miles in a direct line from Gualala. Officers of the steamer say that all they know about the affair is that Goodwin operated his machine at one of the port holes and they heard him engaged in a conversation, apparently getting answers.

## CAPITALIST'S BACK BROKEN.

Street Car Accident in Portland Will Probably Result in Death to Banker of Indiana and Wyoming.

(BY DIRECT WIRE TO THE TIMES.)  
PORTLAND (Or.) March 18.—[Exclusive Dispatch.] Alonzo Gerton, retired banker of Richmond, Ind., and Cheyenne, Wyo., who recently moved with his family to Portland and took up his residence at No. 715 East Madison street, lies at the point of death as the result of injuries received while attempting to board a Mount Scott street car. He was thrown, and his coat caught in the car, which dragged him along the pavement. At St. Vincent's Hospital it was found that his back was broken. Gerton is paralyzed from the middle of his body down. His physicians say there is but slight chance for his recovery.

## TOOK DEPOSITS ILLEGALLY.

President of Failed Institution Is Making Effort to Return Money and Avoid Warrant.

(BY DIRECT WIRE TO THE TIMES.)  
PORTLAND (Or.) March 18.—[Exclusive Dispatch.] With a felony complaint drafted by District Attorney Cameron filed against him in the Police court, F. N. Myers, president of the

Mount Scott Bank of Lents and secretary of the Italian-American Bank of Portland is working desperately to redeem his promise to the authorities to make good the amounts claimed by depositors in order to avoid service of a warrant.

The Lents institution is already in the hands of a receiver, and complaints charging Myers with illegally receiving deposits in the Italian-American bank has been filed.

Not only are the depositors said to have suffered by the alleged unlawful manner in which the institution was conducted, but the victims number many prominent members of the Italian colony, who subscribed to the stock of the bank and gave their promissory notes. Myers asserts that he has wealthy relatives in Nebraska who are coming to his relief.

Among those who figure with Myers in the affair, so far as a connection with the Italian-American bank is concerned, Albert B. Ferrara, its president; Nat Costanzo, vice-president; and E. B. Mochetaz, assistant treasurer. No action has yet been taken except in the case of Myers.

## MAN OF MANY SUITS.

Aged Millionaire Is Now Defendant in Proceedings Brought by Attorney for Fees.

(BY DIRECT WIRE TO THE TIMES.)  
SAN JOSE, March 18.—[Exclusive Dispatch.] Loren Coburn, the aged San Mateo county millionaire, whose affairs have been much in the courts for the past two or three years, was made the defendant in another suit when A. H. Jarman, attorney for the wealthy land owner during the early stages of a proceeding now pending in an upper court over his incompetency, filed a suit asking for fees in the case.

Early in 1909, Arzo A. and Carl J. Coburn, nephews of the old man, sought to have their uncle declared an incompetent. Jarman was retained and fought the case for nearly six months, when the cordial relations existing between attorney and client were severed because there had not been enough money forthcoming. Jarman withdrew from the case, which was later taken up by an attorney of San Francisco, and is now in the Supreme Court on appeal. Jarman is seeking a fee of \$2500, a sum agreed upon, he says, before he took hold of the case.

## BOISE IS RIVAL TO RENO.

Governor Vetoes Residential Extension Bill and Divorces May Be Obtained in Six Months.

(BY DIRECT WIRE TO THE TIMES.)  
BOISE (Idaho) March 18.—[Exclusive Dispatch.] Gov. Hawley has vetoed the residential divorce extension bill passed by the Legislature and the old law of six months' residence for severance from matrimonial bonds still stands on the statute books.

Many from abroad are taking advantage of the law's laxity, using divorce colony such as only Reno boasts, is being established gradually. Gov. Hawley vetoed the bill extending residence to one year in the State and three additional months in the county, contending that the measure would affect pending cases.

"For" he said, "he has reared fourteen, and she has done the job well." So a baby was placed in the home and letters from the Clay Center foster-mother indicate that the baby and family are mutually satisfied.

## HAS STRENUOUS TRAMP.

Over Snow and Ice Alaskan Traveler One Thousand Miles in Thirty Days.

(BY DIRECT WIRE TO THE TIMES.)  
TACOMA (Wash.) March 18.—[Exclusive Dispatch.] Dawson advises that a thousand miles over the ice and snow in thirty days is the record of Colin Inkster, who has arrived in Dawson direct from Iditarod. He walked every foot of the way.

"I did not carry a blanket or a bite to eat, nothing but a light pair of snowshoes," says Inkster. "I struck out alone the morning of January 24, and came the entire distance alone. Roadhouses were made every night but one, and then I found a way of getting some rest. The roadhouses were twenty to thirty miles apart, averaging about twenty-three miles. On stormy days I would make one roadhouse and on favorable days two.

"Some days, I would march forty-eight to fifty miles. The first day I was on the trail it was 58 degrees below zero. The low temperature did not last long and I finished with Florida weather with the temperature almost up to the thawing point. Snowshoes were used in a few stretches where the snow was drifted or very light."

## REPORT QUIET IN EISENBERG.

San Diego Editor Also Says Gov. Vega Is in Active Charge of Affairs in Baja California.

(ASSOCIATED PRESS NIGHT REPORT.)  
SAN DIEGO, March 18.—Editor Van Blarom of the San Diego Tribune returned today from Ensenada, the capital city of Mexican territory of Northern Baja California. He said of the condition of Gov. Vega, who was wounded in battle a month ago, and of Ensenada:

"Gov. Vega is not dead or dying. He is in active charge of affairs military and civil throughout Baja California, until he is able to appear on the streets, which will be in a couple of weeks. Col. Lajol of the Eighth battalion, is acting as the military head, and he receives his orders personally from Gov. Vega."

"Ensenada is as peaceful a community as one could wish to visit. I was there almost a week. I saw fewer soldiers in Ensenada than I do every day in San Diego. At no time has a single store in Ensenada been closed because of the troubles with the insurgents. There has been no advance in prices for food stuffs and other commodities in Ensenada. There is no fear and excitement in Ensenada nor from the city of Juarez to this city. There hasn't been one centavo spent toward fortifying the city and the Mexicans laugh at reported outlawry; they say that Yuma has been a better school style will suppress it in due time, and his subjects are awaiting that time with patience. Col. Lajol has 250 soldiers and the gunboat Demkris is in the harbor."

## SHARKS ON NORTH COAST.

American-Hawaiian Liner Reports Passing Through School of Asiatic Man-Eaters Numbering Thousands.

(BY DIRECT WIRE TO THE TIMES.)  
PORTLAND (Or.) March 18.—[Exclusive Dispatch.] Presumably having been frightened away from their accustomed haunts by an earthquake of a volcanic eruption, thousands of Asiatic man-eating sharks darkened the sea over an area thirty miles long and eight miles wide, off the Oregon coast yesterday.

From 7 until 10 o'clock the American-Hawaiian liner Falcon, Capt. Schage, arriving from San Francisco Friday, was steaming through the great school, and she was reeling off ten miles an hour.

Except an occasional stray now and then the school of sharks said this morning that they never saw a man-eating shark so far north before. The sharks were crowded together, and each appeared to average about thirty feet in length.

## GIRL STOPS RUNAWAY.

Washington Stagecoach Overtaken and Nurse Leaps from Vehicle and Seizes Horses, Preventing Disaster.

(BY DIRECT WIRE TO THE TIMES.)  
RUSUM (Wash.) March 18.—[Exclusive Dispatch.] Keeping her wits when the Trout Lake stage overturned, Miss Josephine Brown, a pretty Portland nurse, prevented a disastrous runaway by grasping the bridles of the maddened horses and holding tight until their plunging subsided.

When near the McCracken Ranch on the down trip one of the hind wheels of the stage went over a tree stump, and owing to the momentum of the vehicle it turned turtle. Miss Brown jumped and escaped injury, but three other passengers were caught and held in the wreck with the driver.

With extraordinary agility Miss Brown managed to keep her feet and rush to the horses' heads. The horses pulled and plunged, but the plucky girl held on, and finally stopped them.

## RIVER STEAMER BURNS.

Fuel Oil Tank Explodes and Steward Loses His Life When Vessel Is Destroyed.

(ASSOCIATED PRESS NIGHT REPORT.)  
PORTLAND (Or.) March 18.—The river steamer Mascot burned to the waters edge early today on the Lewis river near Woodland Wash.

One man, Sidney Illidge, steward of

## Street Styles For Men

are here in perfection. Our suits are dressy, easy and well-fitting, and made in the most fashionable style by experienced cutters and fitters. Here also you get a wide assortment of fabrics in new designs and shades, and you will be more than satisfied with the way each garment is finished. We are not high-minded in prices, either.

426 South Spring Street

the boat, lost his life. The burning of the steamer followed an explosion of the fuel oil tank. The Mascot was valued at \$30,000 by the owners, but in addition to this she had on board considerable freight.

The crew of thirteen, except Illidge, escaped by jumping overboard and swimming ashore.

## TANKS FOR ALASKAN OIL.

Katalla Wells Have Been Reopened and Territory Will Soon Be Shipping Refined Products.

(BY DIRECT WIRE TO THE TIMES.)  
TACOMA, March 18.—[Exclusive Dispatch.] Steel tankage, to contain 37,000 barrels of Alaska oil, is on its way by water from California to Puget Sound. About the time this arrives a shipment of nine miles of steel pipeline will arrive from the East. Both will be forwarded immediately to Katalla to be placed in position with the utmost dispatch. Within sixty days Alaska's first refinery will be shipping oil. Four oil wells near Katalla bored several years ago have been reopened and their daily flow by measure tests exceeds 2000 barrels.

To receive the oil three tanks will be installed. One will be at the harbor and from it vessels will be loaded. Its capacity will be 20,000 barrels. Steamship arrangements have been made.

Negotiations have been under way for the last year bringing about these developments. The flow of oil from these four shallow and crudely drilled wells is more than double the amount of oil used by Alaska which has an annual consumption of 17,500,000 gallons, worth more than \$200,000.

The Katalla oil territory is a strip of land twenty-five miles long by six or eight miles wide, extending to the eastward of the Copper River's mouth. Much mystery surrounds these operations including the new refinery. The Standard Oil Company, through one of its subsidiaries, is believed to be behind them.

## RED REBELS AS OUTLAWS.

At the end of trouble was experienced, the departure of the recent insurrection, however, the robber band came under the wing of the union labor contingent of Los Angeles and other Pacific Coast cities. Many I.W.O.'s were captured, and an army of the lowest type of assassins and anarchists, who believe only in the rule of the strong, was gathered.

"Rebels were then held, and Bertold and Leyva chosen as field leaders. Capt. McDonald and Stanley, their subordinates, are not the less despicable. They are blusters of the worst type, cruel and vindictive, and the quickest some military power steps in and crushes them, the better it will be for all concerned."

"The Maderos are fighting for the overthrow of the Diaz government, but their ideals are not socialistic in any manner. They believe in the democratic or rather republican form of government and because they differ from Diaz in this, they have decided to fight. Their force, however, have nothing to do with the Mexican bunch."

"DIAS' COURTEOUS TREATMENT."  
"I, myself, am not engaged in Mexican politics as members of my family are. I have kept completely in the background during the insurrection. I have many friends close to President Diaz and have never had unkind treatment from him of any sort. My Mexican interests are exceedingly large, and demand the employment of a great army of men. The entire Madero family in Mexico numbers over 200. They are the wealthiest citizens of Mexico, and count their acres by the millions."

"My interests are at Torreon. In the rubber raising district. I have a hacienda there of over 1,000 acres. I believe that the days of the large haciendas are over. Minister of Finance Limantour realizes this also, and will endeavor to convince President Diaz at his scheduled conference in Mexico City."

"My property at Torreon and Monterrey has not suffered from the incursions of Federalists. I am strictly in the middle of the road on this entire issue. I am in peace."

"My interest in Madero, aside from his Mexican interests, owns mining property of great value in Lugo county. He is well-known in Los Angeles, and it is said is the only member of the Madero family who did not take up arms against the Diaz government."

"Madro, prior to coming to Redondo Beach, was in Los Angeles. His health is not good."

announced was given by the excellent church choir.

The afternoon, being preceded by a sermon by the Rev. Daniel F. Fox of Pasadena. In the evening there were addresses by the Revs. E. P. Case, H. P. Hardy, A. C. Wright, C. S. Hillings, J. H. Mallows, J. E. Maitland, and a cordial welcome was extended by Rev. Charles W. Hawkins, the pastor. The sermon at 8 o'clock was preached by Dr. Warren F. Day.

**PERSONAL.**

Frank Haddock, a miner of Gold Beach, Ariz., is at the Hotel Nadeau.

John C. Knecht, a stock raiser from Belmont, is a guest of the Nadeau.

Fred van Orman, proprietor of the E. George Hotel, Evansville, is registered at the Alexandria.

John Ryan, of Ludlow, traffic manager of the Tonopah & Tidewater railway, is staying at the Westminster.

Mr. and Mrs. William Erskine of Wheeling, are guests at the Westminster. Mr. Erskine is widely known as an attorney in the East.

E. M. Brockett, a prominent banker of Kansas City, who is touring the State with his wife and child, registered yesterday at the Westminster.

Edward Hockaday, a banker and business man of Klamath, Okla., who has been touring the State all winter with his family, has brought them to the Angelus for their stay in the city.

Y. F. Erickson and C. A. Erickson, stock-raisers from Spokane, are at the Hollenbeck. They are renewing acquaintanceships formed during a residence in Los Angeles several years ago.

Mrs. Charles Woolfolk, of Paducah, Ky., who is staying at the Hollenbeck, has decided to remain in Los Angeles through the summer. She expects to buy a home in the city. Since her husband's death, she has administered the affairs of a controlling interest in the firm of Charles Woolfolk & Co., who have one of the largest printing houses in Kentucky.

Of course, there is "great harmony" among the Democrats. As proof of

the political watchtower.

Comes now M. Lister with a carload of political audacity that would make the extinguished Abe Ruef grin with sinful glee had he but his one-time opportunity of emulating it. Lister has always prided himself upon his tricky shrewdness in the political game. When rival politicians have been credited with having performed some smooth piece of political handwork that won acclaim from the little bunch of legislators disdainfully "Pshaw—crude."

But crudity has now come home to roost at the Lister residence, and in no less a place than in the Bristol cafe. Those who may be ignorant of the fact should know that the proprietors of the Bristol cafe were cited to appear before the Police Commission March 6 and show cause why they should not have their liquor license revoked, as they were charged with selling and serving liquor to minors in their establishment. The hearing was set for March 12, but because it was alleged that important witnesses could not be present, the hearing was postponed.

Usually an attorney engaged by the Bristol cafe would have appeared in behalf of the defendant restaurateurs, but to the surprise of politicians and suborners and restaurant keepers generally, Ray Howard bobbed up in this capacity. The significance in his appearance is found in the fact that Howard is employed in Meyer Lister's office. The inquiry is: If the Bristol wine will Lister get the credit for exerting a pull, or will Howard be credited with having "singular ability?" When Abe Ruef was doing this sort of thing his political enemies were shrieking nasty things at him.

There is a revival of the effort to make Joe Scott an independent candidate for Mayor, but Joseph has no many family ties, that he could hardly manage on the \$250 per month salary that the Mayor may legitimately draw. While this sum is a princely fortune to Uncle Alex, it isn't much more than pin money for a man with a family of the Joe Scott dimensions.

## THE POLITICAL WATCHTOWER.

Comes now M. Lister with a carload of political audacity that would make the extinguished Abe Ruef grin with sinful glee had he but his one-time opportunity of emulating it. Lister has always prided himself upon his tricky shrewdness in the political game. When rival politicians have been credited with having performed some smooth piece of political handwork that won acclaim from the little bunch of legislators disdainfully "Pshaw—crude."

But crudity has now come home to roost at the Lister residence, and in no less a place than in the Bristol cafe. Those who may be ignorant of the fact should know that the proprietors of the Bristol cafe were cited to appear before the Police Commission March 6 and show cause why they should not have their liquor license revoked, as they were charged with selling and serving liquor to minors in their establishment. The hearing was set for March 12, but because it was alleged that important witnesses could not be present, the hearing was postponed.

Usually an attorney engaged by the Bristol cafe would have appeared in behalf of the defendant restaurateurs, but to the surprise of politicians and suborners and restaurant keepers generally, Ray Howard bobbed up in this capacity. The significance in his appearance is found in the fact that Howard is employed in Meyer Lister's office. The inquiry is: If the Bristol wine will Lister get the credit for exerting a pull, or will Howard be credited with having "singular ability?" When Abe Ruef was doing this sort of thing his political enemies were shrieking nasty things at him.

There is a revival of the effort to make Joe Scott an independent candidate for Mayor, but Joseph has no many family ties, that he could hardly manage on the \$250 per month salary that the Mayor may legitimately draw. While this sum is a princely fortune to Uncle Alex, it isn't much more than pin money for a man with a family of the Joe Scott dimensions.

Among the Democratic job chasers they are talking of Dr. D. W. Edelman as good Mayoralty timber, along with C. A. Canfield, and occasional suggestion of my aggressive friend, Martin Frjoles Betkouski, the Irishman from Poland. Edelman seems to be attracting the most attention, although there is an aggressive element among the non-factional Democrats, who profess belief that Canfield would make the more acceptable nominee. Martin Frjoles, I am assured, will really make an attempt to get into the Mayoralty fight if Uncle Alex is switched from his present job to that of president of the new Water Commission.

The Mayor realizes that the Water Commission head will draw the same salary as he is now taking from the city treasury, upon the representation that he is the city's chief executive, and he thinks it would be a nice place to fall into. As Betkouski has been receiving adulations and castigations as the "discoverer of Alexander for Mayor," he and his cohorts ever in the Seventh Ward are nursing the hope that he may have a look-in. I understand that Tommy Martin and Fatsy Clark are touting Martin as the only original Democratic "reformer" that ever came down the pike, that succeeded in keeping in touch with the great party of the unwashed. With Bill Kennedy, Doc Wright, Al Norton, Eddie Morris, Bill Moore, Tony Schwann, ex-Councilman Farish, Cole of the Sixth Ward, and Frank Golling on his campaign committee, Betkouski would have almost all the warring factions of his party working in his behalf. I understand that Tim Spelacy would not object to succeeding Alexander, if his friend, Canfield, doesn't want to make the race; and furthermore, I hear that Canfield will run if he takes the encouragement that his friend and business associate, E. L. Doherty, the oil king, is said to be giving him. And, still furthermore, Bobby Loucks has been saying that he has heard that Joe Simons would make the best race for the job of all the boobies he wrote of. The big brickman is, however, concerned at present with family affairs, and it will not be many days before Simons is passing round the cigars in celebration of his off-made claim that he can make other things besides bricks.

Of course, there is "great harmony" among the Democrats. As proof of

the political watchtower.

Comes now M. Lister with a carload of political audacity that would make the extinguished Abe Ruef grin with sinful glee had he but his one-time opportunity of emulating it. Lister has always prided himself upon his tricky shrewdness in the political game. When rival politicians have been credited with having performed some smooth piece of political handwork that won acclaim from the little bunch of legislators disdainfully "Pshaw—crude."

But crudity has now come home to roost at the Lister residence, and in no less a place than in the Bristol cafe. Those who may be ignorant of the fact should know that the proprietors of the Bristol cafe were cited to appear before the Police Commission March 6 and show cause why they should not have their liquor license revoked, as they were charged with selling and serving liquor to minors in their establishment. The hearing was set for March 12, but because it was alleged that important witnesses could not be present, the hearing was postponed.

Usually an attorney engaged by the Bristol cafe would have appeared in behalf of the defendant restaurateurs, but to the surprise of politicians and suborners and restaurant keepers generally, Ray Howard bobbed up in this capacity. The significance in his appearance is found in the fact that Howard is employed in Meyer Lister's office. The inquiry is: If the Bristol wine will Lister get the credit for exerting a pull, or will Howard be credited with having "singular ability?" ## A Valuable Suggestion

Important To Everyone

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich, heavy food, thereby forcing the kidneys to do more work than nature intended. Evidence of kidney trouble, such as lame back, inability to hold urine, brick-dust or sediment, sallow complexion, rheumatism, maybe weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

An herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root.

You may receive a sample bottle of Swamp-Root by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention the Los Angeles Daily Times.

this time-worn statement permit me to introduce the armistice existing between County Chairman Napoleon Norton, he of the liberal claims, and Editor Tom Gibbon. They haven't spoken to each other for six months. Norton has held him to an office adjoining ex-Judge D. K. Traub's and declares he is attending to his law business. Gibbon merely says "humph" when this intelligence is conveyed to him.

If I have not been dazed by piano music—I hear Gibbon is especially fond of pianos—the editor Democrat has been delving into the records of the management of the Democratic County Committee in the hope of "getting the goods on Norton." Gibbons has been entertaining the idea that the county committee "sold out" when wine in the last campaign. Isn't that worthy of a place in the wit and humor column? If the Democrats had any thing to sell in the last campaign it must have been lack of votes. Next thing we know, Hill Harris will be coming through with the claim that he was "sold out" to elect Sheriff Hammel.

Methodists that Woolwine might have had a few more votes if he had not endeavored to sacrifice every other Democrat on the ticket with him last November. Not once did Thomascat play on the Democratic back fence, but went chasing off by himself to cry for votes. Every time he heard the name of his political party mentioned, he jumped as if he had been shot at and mislead. No, may, Mr. Woolwine was trying to gumshoe into public office and he was apparently ashamed to have it known that he was a Democrat and a candidate for office on the ticket under that covering. Woolwine refused to heed the request of the Democratic County Central Committee to fight with his fellow-candidates, although to my knowledge every Democratic precinct worker had orders from Norton and the committee to support the whole ticket. This was a bitter dose to some of the sensible fellows—a line from Muggins McDonald, please—but I guess they did the best they could.

When the new Police Commission is announced I am "relaxed" that it will be found that Wellborn and Johnson will be the Mayor's associates. This lineup will give Wellborn a chance to talk while Uncle Alex and Johnson vote together. Wellborn's Mayoralty bee has been stepped upon. At any rate, it isn't buzzing any more. I hear that Dr. Prather, Democratic boss of Lake county, who runs the big Adams Hot Springs, as well as the destinies of the little county up North all summer, and spends his winters now in Los Angeles, says Wellborn is the "original Canfield" man.

# "Learn to Save By Saving"

Another of the pertinent phrases used by a prize winner in our plans for saving contest was "Learn to Save by Saving." Here is a thought worthy of Benjamin Franklin. It is the very fundamental principle of successful saving. It simply means that once you have started an account you will easily learn how to add to it. Open a savings account here now—\$1.00 will do it—We pay 4% interest compounded semi-annually.

**Capital and Surplus Over \$2,250,000**

**3% Interest Paid on minimum monthly balances of \$300 or more. Interest computed and credited monthly.**

**4% per cent. interest paid on six months' Term Deposits. Any sum of \$1.00 or more will start an account.**

—a store for lovers of fine furniture

**Barker Bros**

ESTABLISHED 1880

The Representative Furniture House of Western America

724, 726, 728, 730, 732 South Broadway

In the illustration above is shown a particularly noteworthy reproduction—a table which may be seen in our stock—of one made for Oliver Cromwell, the original now being in the possession of Mr. D. de Lafontaine, at Attlehampton, in Dorset.

This is a table which will be appreciated by lovers of fine furniture, and can be used either as a breakfast, card or library table. It is made in both mahogany and oak.

Many other equally artistic tables will be found in our extensive display—tables in which high quality and correct design are emphasized.

Those who are furnishing fine homes will find ample opportunity to satisfy their desires at Barker Bros., in furniture that is thoroughly worthy—and without, not extravagantly priced.

Visitors are always welcome—without obligation to buy.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## AUTOMOBILE'S WILD PLUNGE.

### Goes Over Brink With Four Passengers Aboard.

### Falls Wrong Side Up at Bottom of Hill.

### Four of the Five People in Party Injured.

PASADENA, March 26.—Another frightful accident has occurred on the Eagle Rock Hill, on the east side of New York Valley, and F. L. Thacker, a gunsmith, located at No. 2844 East Third street, Los Angeles, is in a hospital with his neck split in two parts and a number of painful bruises. Mrs. Thacker has a number of painful bruises, Frank Haskuth is severely shaken up and his mother, an old lady, 86 years of age is suffering from a serious nervous shock.

The party had left Los Angeles for Pasadena, by way of Garvanza and Eagle Rock. They were in Haskuth's seven-passenger White Steamer and started up the Eagle Rock hill. When about half way, Haskuth changed from the high speed to the low speed. In trying to make the change he lever failed to work and the machine started backwards down the hill. Thacker, a very large man, weighing 250 pounds, was sitting on the front seat with Haskuth and jumped for his life when the machine had gained considerable speed. He was just starting to topple over the steep embankment. He struck a barbed wire fence, a barb catching his nose, between his eyes completely splitting the nose. The cartilage which separates the nostrils was completely severed from end to end as completely as a surgeon's knife. He also suffered many small cuts about the head from the wire fence.

The balance of the party stayed with the runaway machine which made one turn and lit near the bottom of the gulch upside down on a clump of bushes. This fact it is believed saved the party from instant death. As it was, they escaped with a number of painful bruises and severe nervous shocks.

Thacker ran to the relief of the party and turned the wrecked machine over allowing the injured passengers to crawl out.

A. J. Christy of No. 136 Raymond avenue discovered the party, brought Thacker and his wife to Pasadena, where the former was treated by Dr. Ralph Newcomb. It required twenty-one stitches to sew up the broken nose. The remainder of the party were taken to their home in Los Angeles at the corner of Vernon avenue and Sixteenth street.

The accident happened on the place where Miss Agnes Claypool was killed in an automobile accident a year and a half ago, while out riding with Harry Smith, who was the chauffeur of the Stinson going down the hill when his brake broke and he tried to guide the car around the dangerous curves. He held the road until the machine was supposed to be running at ninety miles an hour, when it jumped the high bank and lit on a pile of rocks in the bottom of the gulch.

The two things which saved the party yesterday from suffering more serious injury was the fact that the machine only traveled about 100 feet in backward course, and consequently was not running fast. The other redeeming feature was that the car overturned on a clump of brush.

## REDONDO BEACH.

### Pythian Sisters in Convention.

### Will Hold District Meeting During This Week.

### Grand Officers Will Be Present and Will Be Features of the Day's Program.

### Members of the Railroad System Are Being Connected.

REDONDO BEACH, March 26.—The Southern California district convention of the Pythian Sisters will be held here Thursday. Sessions will be held morning, afternoon and evening and about 250 members of the order are expected to attend.

Mrs. A. F. Welton of this city, district deputy will preside during the day and Mrs. Mary Livingstone of Los Angeles, grand deputy of the State organization will occupy the chair at the evening session.

In the forenoon there will be a reception to the grand officers and in the afternoon a school of instruction followed by a business session. The Pythian Sisters of Redondo Beach are being connected with the transfer of freight and road materials, according to Supt. Maddox, as both lines are now operated from Redondo Beach.

When the Redondo lines are being broad-gauged the San Pedro line can be used for the transfer of passengers. When both lines are broad-gauged it is likely that the balloon route excursion will include San Pedro via Hermosa Junction.

It is probable that the whole work of broad-gauging the roads may be completed by June 1.

## HOEGES WON.

### In the contest between the Hoeges and the Burns shoe company team.

### The Redondo Beach diamond this afternoon the Hoeges won by a score of 9 to 8.

### Big Land Sale Cheers Them.

### Santa Monica Expects a Period of Great Activity in Realty and in Building.

### The sale by the Santa Monica Land Company of a 240 acre tract of 770 ft. lots and the avowed intention of the new owners to improve this and make it immediately available as high-grade home sites.

### Looking forward to the most active season of development in the history of the city.

### These lots lie east of Seventh street and extend as far as Seventeenth. On the north the tract is bounded by Montana avenue, while the southern line is Nevada avenue.

### It is stated to be the purpose of the purchasing syndicate to pave the streets and provide the entire tract with sewers, gas and water and run the electric service in the valleys before any of the lots will be offered for sale.

### Edgar F. Cole and associates of Los Angeles are named as the purchasers, at a stated consideration of \$300,000.

### Simultaneous with the announcement of the consummation of this deal comes the statement from the Santa Monica Land Company that the old bath house on North Beach will be razed at once.

### This is done because the old bath house has outlived its usefulness, although only a few years old.

### It was the finest bathing establishment at any point along the southern shore of the Pacific.

### Following the demolition the bath house will come the extension by the same company of the broad walk for a distance of 2000 feet northward along Santa Monica beach.

### This walk already extends in an unbroken line as far south as Short Line beach, below Venice, a distance of three miles.

### Times Branch Office.

### No. 148 South Broadway, Room 204, Los Angeles.

### Agents and Subscribers.

## SAND DWELLER.

### Tires of Life.

### Police Prevent Disconsolate One from Ending Life.

### Owes Life to Proprietor of Rooming House.

### Two Whittier Boys Try Career in Bluff Cave.

### LONG BEACH, March 26.—The landlady of a local rooming house this morning notified the police that a lodger by the name of Charles Bowler had just left his rooms after acting so queerly that she was afraid he intended to commit suicide.

### Detective O'Rourke was detailed on the case and overtook Bowler at Second and Cedar streets.

### He was brought to the station where he admitted that tired of life and misfortune he had made up his mind that death would be a welcome relief and had intended to go to San Pedro and seek relief in the ocean at Point Pinos, where he figured there would be no chance for rescue if his attempt was seen.

### Bowler is just out of the county hospital where he has been for several weeks due to an injury received while at work.

### He is crippled and still on crutches. He was jollied up by the city officers and then an order was secured from Mayor Windham for admission to the county hospital again as a patient.

### Bowler claims to have no friends or relatives in this part of the country.

### HUMDRUM WHITTIER.

### James Sergeant and Oliver Riley, aged 19 and 12 years, tired of the humdrum life of Whittier and three days ago started out into the wide world.

### They got as far as Long Beach and decided to become cave men. They found quarters in the bluff near the East Side bath house beyond Alamitos avenue, but unimpressive people who noticed their actions notified the police and a big policeman dragged them from their last night and took them to police headquarters.

### Where they were given a warm meal and then tucked away beneath warm blankets. The police then returned with them to their parents.

### Three days of vagabondage made the little fellows anxious to go home and take the parental licking uncomplicated.

### Long Beach men have been summoned as witnesses in the trial of Sam Apodaca, which is set for Thursday for the murder of J. S. Ranous.

### An old man who disappeared in September and whose body was found a month later in a manure pile on the beach. The evidence against Apodaca, who was an employee of the murdered man, is circumstantial, but there are several strong links leading directly to the accused.

### Apodaca was arrested in September following the disappearance of his employer. Molino will testify that the second day after Ranous' disappearance he saw Apodaca on the beach and his first orders were to haul two loads of manure and dump them on a dump near the beach.

### At the end of the big pile already on the lot and it was at this spot where the body was found. The two Japs who purchased the manure and in finding it uncovered the body will testify that Apodaca tried to sell them the manure by saying everything on the place belonged to him because Ranous had gone away and would not be back.

### All of this additional evidence has developed in the past ten days. Other strong points are the fact that Apodaca went around everything on the beach belonging to his employer after the crime and assumed charge of the ranch. A pawnbroker will testify that Apodaca bought a diamond ring from two days before Ranous' disappearance and afterwards returned the ring saying it was no good, although two chambers showed evidence of having been used. The accused, however, is a stoic and never since has he shown any emotion which could be seized upon to break down his position that he is innocent.

### RAINS DELAY.

### R. H. Gosson of Watsonville, who has accepted a call from the local Y.M.C.A. to be its general secretary, has wired acting Secretary Doyle that it will be impossible for him to assume charge before April 1.

### Gosson was to have taken hold of his new work on the first of the month, but the recent floods in the north hampered his westward journey.

### Parts of his district and delayed winding up the affairs of the different branches of the Watsonville charge.

### MODEL DRESS.

### In order to secure uniformity printed leaflets are to be given each girl of the High School senior class describing in detail the dress which they recently decided to wear for graduation gowns.

### In the leaflet is a photo of the model dress designed by the sewing teacher, a diagram of the pattern, the way it should be used in cutting the material and the amount and kind of material which will cost about \$2.50 complete.

### The material to be purchased is five yards of luna lawn, twelve yards of lace and insertion, one spool of thread and cord for the belt and the pattern.

### All the dresses will be of uniform length, hanging seven inches from the floor. The senior class has received resolutions from Ebel and from the school board commending them for their action in selecting so simple a gown.

### NEW CHAPTER.

### Mrs. George T. Brown of Los Angeles, State organizer for the P.E.O. Sisterhood, was in the city the past week arranging for the institution of the new chapter which will be organized this week.

### The chapter will be composed entirely of new members, there being no division of the chapter by city.

### NEWS BRIEFS.

### The Long Beach W.C.T.U. has elected as officers Mrs. Ella Lyman, president; Mrs. E. J. Kimball, vice-president; Mrs. Nettie Doyle, recording secretary; Mrs. Kate Hart, treasurer.

### Other officers are Mrs. E. C. Fry, president; Mrs. J. A. Webb, vice-president; Mrs. C. H. Hook, secretary.

### The annual convention of the State convention will be held at the First Methodist Church in this city June 6-8.

### The swimming boat in Pacific Park, which for over six months has kept up a perpetual oscillation is still an object of interest to visitors and especially to those of a scientific bent of mind. It is about ten feet long, three inches wide and an inch in thickness. On each end

## AERIAL TROLLEY IS THE LATEST METHOD OF TRANSPORTATION.

Aerial Trolley. Newest invention for transportation of passengers. Line under construction between Glendale and Burbank.

LENDALDE, March 26.—An aerial trolley line to run between this city and the town of Burbank, about twelve miles to the north, is the latest proposition which has been started and which promises to be a reality before many months. It is proposed to run the new aerial trolley from the northern town south along the west side of the San Fernando Valley, the tracks running along the route over which the old "dummy" line ran some twenty-five years ago, just west of the Los Angeles River. The southern terminus is to be somewhere in Edendale from where the passengers may take an electric car bound for the center of the city. These are the present plans, but when this much has been done it is very probable that the aerial trolley will run directly into the heart of Los Angeles.

The owners of the aerial trolley proposition claim that they can carry passengers between Burbank and Los Angeles for a five cent fare and make a good margin of profit. It is claimed that the aerial trolley will develop a speed of a hundred miles or better per hour and that the cost of running the car and also the danger to the passengers will be reduced to a minimum. The accompanying illustrations show the car as it is at the present time, without covering.

The aerial trolley car is the invention of Mr. and Mrs. J. W. Fawkes. For the past year or so these inventors have been working on this trolley. They went to Burbank several years ago so that they might work on their invention without being disturbed. That the aerial trolley is a success has been proven on the Fawkes ranch in the northern town. A stretch of over 600 feet of track has been erected and along this a car of about the size of the ordinary street car holding fifty-six passengers is run.

The car is cigar shape. It is supported by single overhead wires and is which it rides. This rail is hung from poles much as is the trolley wire of the present trolley system. On the track already erected the rails and its supporting poles are built of sufficient strength to carry over five tons. The car is made of aluminum, except those of parts which require steel and is therefore lengths of wire which are fastened to trees on each side. Originally hung with other similar boards about a plot of lawn to keep trespassers off it is the only one which keeps up a continual rhythmic swinging movement, never stopping for an instant, while the companion boards hang still and rigid save when swayed by the wind. The board was hung in September of last year by Park Superintendent Long.

During a friendly scuffle last night between Mrs. H. O. Rhea and her 11-year-old daughter, at their home on East Fourth street, the daughter hit her mother across the nose with her elbow fracturing the organ.

Talking to an acquaintance and fearful of his surroundings, C. C. Spencer, janitor of the Westlake M. E. Church in Los Angeles, last night walked off a moving Pacific Electric car at Seventh street and American avenue, striking on his head and was rendered unconscious. His only injuries, however, proved to be a lacerated knee and a cut head, with some minor bruises.

The little daughter of J. C. Huguinin, attempted to deprive a Spitz dog of a bone today and the canine bit her on the left hand. No serious results are looked for as the dog is young and not vicious.

at Mexicali he believed the representation which had been made to him that there were only a little handful of hooligans at Mexicali who would run upon the firing of the first guns by Federal soldiers. When Vega's column reached the banks of New River they fired volleys in the air, believing that this would frighten the "handful" of hooligans away; but when Vega really learned that he was "up" against an army force of considerable numbers and made his retreat toward the hills, after he was wounded, he believed that the insurgents would follow and attempt to exterminate or capture his men.

It will be remembered by readers who have followed the narratives of the troublesome times at Mexicali that during the retreat of Vega's four Federal soldiers deliberately crossed the international boundary line, and after getting into the United States threw down their guns and were taken into camp at Calexico by United States soldiers. According to Vega's statement to Attorney Parker, this was a premeditated plan of Vega's to save his valuables. His secretary was instructed to cross over to United States territory, and the men were detailed according to him. This secretary carried a satchel containing Vega's valuables, his cipher code, etc., which he believed he was thus saving from the insurgents. The four men were held in camp at Calexico for a while and subsequently were sent back to their homes in Mexico, when the secretary rejoined Vega.

**Escondido.**

**TO CELEBRATE  
GOLDEN WEDDING.**

**VIGOROUS PIONEER BUILDING  
HIMSELF A NEW HOME.**

Ythiazing Air of California Has Made This San Diego County Man Oblivious of the Flight of Time and He Is Making a New Home in Which to Live.

ESCONDIDO, March 12.—With plans maturing for the celebration of his golden wedding in 1915 and of attending the Panama-California exposition in San Diego in 1915, D. M. Eddy, a retired rancher, age 92, is completing the erection of a five-room cottage in the residential section of the city for the use of himself and wife. With his wife, who is 74 years of age, Mr. Eddy expects to occupy his new home upon his return from a trip "back east" for a visit with his children, grandchildren and great grand children.

At the age of 52 Mr. Eddy is hale, hearty and happy. For seventeen years he has been a citizen of Escondido, where he has followed ranching. A few months ago he accepted a flattering offer for his ranch, three miles out of the city, and buying five acres of land near the Santa Fe railway station he moved into town and commenced the erection of a modern little house. Mr. Eddy was born in Marion, Wayne county, New York, in which state he remained for 56 years. His life has been devoted to farming and the mercantile business. When 22 years of age he voted for William Henry Harrison for president, and has voted for every republican nominee for president since. He expects to cast his vote in the next presidential election. He has never been a user of tobacco or intoxicants. His religion is he is a Baptist. The three children of Mr. and Mrs. Eddy are: Mrs. F. M. Woods, and Seth W. Eddy, both of New York, and Lawrence, Kan. They have four grand children, and Mr. Eddy says "more great grandchildren than I can count."

IN THE HILLS.**

**UPLAND, POMONA AND CLARE-  
MONT FELT THE SHAKE.**

Disturbance Lasted Fifteen Seconds and Was Vigorous and Alarming in Location Near the Head of San Antonio Canyon.—No Serious Damage Was Done.

Last night at 6:05 o'clock a series of distinct earthquake shocks were felt in the mountains and foothills east of the city.

The vibrations, which in some cases shook dishes from the shelves and rattled the kitchen pans ominously lasted fifteen seconds and greatly alarmed timorous residents.

The shocks came from Upland, Pomona and Claremont but practically the same story of disturbed nerves but no material damage. At the head of San Antonio Canyon the shock was quite severe but no land slides were reported.

On San Bernardino the shock was hardly perceptible the cause of the disturbance evidently being toward the Mexican border.

**BISHOP JOHNSON DEDICATES.**

New Chapel Consecrated to Worship Cost Parishioners Ten Thousand Dollars.—Pastor Will Stay.

IMPERIAL, March 12.—Bishop Johnson of the Episcopal church of Southern California has returned to Los Angeles after several days spent in Imperial Valley. While in the city of Imperial, Bishop Johnson assisted at the dedicatory services of the recently erected Episcopal chapel. The cost of this handsome chapel was ten thousand dollars.

The rector, Edgar M. Rogers will continue to serve as pastor of the new chapel and will not leave for El Centro as was at first intended.

**NEWS BRIEFS.**

Imperial Chapter Order of the Eastern Star held its annual masquerade ball at the El Centro hotel last evening at which the guests included members of the order and representative Masons from Hawley and El Centro.

Mr. M. A. Vance entertained the Karnak Club at a home Thursday evening. This club numbers seventy-five members, and is composed of professionals, businessmen and sportsmen. Mr. Vance, Hawley and El Centro.

Mr. and Mrs. Carson Peacocks of Los Angeles, are the guests of Mr. and Mrs. Bernard Thomas and Mr. and Mrs. L. T. Thomas, president of the

**PLEADS HARD TIMES AS EXCUSE FOR POVERTY**

FATHER SAYS POVERTY ONLY OFFENSE.

Arrested on Warrant from Bernardino for Neglecting His Family, Cirrus District Doing Trade Being Organized Among them of Tulare County.

**PORTERVILLE,** March 19.—Chase which it is said has more than three months, the father of the husband of Dr. Griffin under arrest on a felony warrant, sent here for service for Bernardino.

Griffin, talked freely in the after he was judged in the court. He says he came to Southern California from the East on account of his health. Shortly after this State the wife died leaving him with a small son, and practically without funds, except heavy expenses of caring for during her invalidism. The boy went into the charge of a San Bernardino family, on the agreement that the father would receive \$100 a month. He has been in hard luck and gone through with his payments and that he would be no more. They wish with whom he left the child to make of the courts a collection for the money.

**CITIZENS TIPPED.**

Members of the redlight district recently have a friend who kept posted of the inside news of officialdom, as the tip went that the lid was to be put on the citrus district. One of the former residents of the half way Chief of Police Iaham has come to not cause the arrest of an inmate of the redlight district. He is practically assured, it is said the district was opened again, and would be closed. They wish to be advised to leave without they refuse to obey the order, he hailed into court.

**CITIZEN BOARD.**

Committees comprising W. J. real estate dealer and Robert newspaper man, with credentials to the local Chamber of Commerce Merchants' Association, are organizing the work for the year organization work for the District Board of Trade, which include the Boards of Trades of members of Commerce of Lindsay, Strathmore, Upper Tulare, Du.

It is the purpose to unite the of the citrus district and it is to have this citrus district trade work in harmony and combine with the Citrus Protective League of the citrus cities as well as of this State.

The long continued warfare between the citrus interests and the Supervisors of this county has resulted in the residents of the citrus districts for combined action. Interests are to be conserved and the matter mentioned will be detrimental to the main purpose, example of the matters to be organized will devote its efforts to the organization to hold the first organizational meeting of this nature at Exeter on a date yet to be the second meeting will be Lindsay, the third one in Porterville. The amount of the dues is \$10.

It is the purpose to adopt an organization as the board with the local boards. This board is showing the proportion of value and property which it is estimated worth \$20,000,000.

One of the chief activities of showing the assessed valuation represented in the citrus as showing the proportion of the orange growers of this county the oranges growers.

10 o'clock and lying down upon a couch in the parlor fell asleep. He was aroused by cries of fire and found the entire front of his home in flames. So rapidly did the fire burn that he was unable to save anything.

The fire department did good work in saving the immediately surrounding buildings.

**DESERTED, SHE DIES.**

Deserted, it is claimed by the local officers, by her husband, left in destitute circumstances and without food for days, which was the immediate cause of her illness, Mrs. Flora Mitchell died yesterday after a short illness at a local hospital.

The husband, who it is claimed is directly responsible for her death through his heartless desertion of her, is in the County Jail, where he was lodged for his crime and awaits the action of the Superior Court. It is said that the people of this city will see that the case against Mitchell for his alleged desertion of his wife, will be prosecuted to the extent of the law. Mrs. Mitchell was a singularly beautiful woman, moved in the best of society here and was a very popular girl. Her marriage to Mitchell, which occasioned no end of surprise two years ago, is said to have been her undoing.

## THE LAND SHOW.

One of the most artistic and appealing presentations of the resources of the Pacific Coast is the Land and Products Show now open at the Shrine Auditorium. It is a delight to the eyes of our own people and a revelation to the strangers within our gates. We predict that it will be visited by 50,000 people before it closes, and that every one of them will treasure the recollection of it. It really takes an exposition of this sort to give us an adequate idea of the riches and beauties of our own godly heritage.

## BE ON GUARD!

A number of mysterious fires have occurred in the business district of Los Angeles of late. It is not clear what caused them, but certain of the "reds" have taken pains to intimate that there will be others and lots of them. The Times advises the owners of big properties here to take special precautions from now till after May 1. All the hatred of the property-owning class in the country has been concentrated on Los Angeles. This city is a focus for it at the present time. Incendiaries and dynamiters are the favorite methods of these vicious promoters of revolution, and we speak by the book when we recommend the doubling of the watch.

## CAN TAKE A LESSON.

This has been, far and away, the greatest tourist season that Southern California ever had! Our city and all the resorts of the Southland have been taxed to accommodate the great throngs of visitors. Let us prove our deserts by adding to our attractiveness and beautifying the ugly spots. The unkempt vacant lots in Los Angeles cost the city \$1,000,000 a year easily by their depressing effect on adjacent properties. Los Angeles can take a lesson from Pasadena. There are no such blemishes on the face of Pasadena.

By the way, would it not be taking fortune at the flood to complete and open that unfinished landmark in Pasadena, of such great possibilities, the much-talked-of Hotel Wentworth?

## WHAT IS A PRIZE FIGHT?

The laws of California seem to leave the question wide open. The District Attorney apparently has much dubiousness about it. If Wolgast knows, he won't tell. Jim Jeffries—well, nobody has asked Jim lately. But here is our definition of a prize fight: A prize fight, as at present conducted, is an arrangement whereby several thousand foolish people give up their money to an enterprising promoter who has hired two brutes to make a pretense of hurting each other.

Any man who has no more sense than to spend his cash for such a show instead of paying his grocery bill with it or investing it in real estate should be prosecuted to the full extent of the law against letting lunatics run at large.

Now you see it does not take a very wise man to decide what a prize fight is or what should be done about it.

## A SOUTH AFRICAN MISARRIAGE.

The whole of South Africa has been convulsed by the action of Viscount Gladstone, first Governor-General of the South African Union, for his action in relieving a native legally sentenced to death for a criminal assault upon a defenseless white woman. The culprit was given a fair trial. Lawyers quibbled over the minutest points of evidence in a vain attempt to secure a verdict of "not guilty." In spite of their artfulness the man was proved guilty and sentenced to the full extent of the law. Viscount Gladstone has relieved the convict. Since then no less than nine similar crimes have occurred in South Africa. White women are terrified and live in fear and trembling during the absence of their husbands. The women of the Anglo-Saxon race stand for all that is good, pure and holy. When defenseless white women are left at the mercy of brutes whose only thoughts are lewd and depraved the people are forced to demand protection. They insist on speedy justice being meted out to bring such men under subjection. In relieving this man for political reasons Viscount Gladstone not only lowered himself in the eyes of the world, but betrayed the great trust which a law-abiding people had placed in him as Governor-General.

## RIGHT IS BRIGHT.

Mrs. James Williams of No. 1456 Vine street, Denver, Col., has been admitted to the International Sunshine ranks by the president-general, Mrs. Cynthia Westover Alden, No. 98 Fifth avenue, New York city. It is a stimulating tale the way Mrs. Williams suddenly found herself wearing the badge of membership. Mrs. Alden while in her office in the top story of a tall building of the great metropolis got word last month from a California member of the California Club that she had heard of a California woman who had met with reverses in Denver and was sick and in great need. Mrs. Alden immediately connected with their Denver leader, Mrs. Minnie D. Smith, who is connected with Mrs. James Williams, who, in her rounds of mercy, found the California woman, took her from a vacant house where she had temporary shelter, secured a comfortable home for her and then sent the good news back, way back to New York city—and the first thing Mrs. Williams knew was a beautiful medal making her a member of this wonderful society that is spreading its sunshine all over the whole world.

"Then scatter deeds of kindness," good women, and don't worry whether you may vote or not, bless you!

Don't you think for a minute that Satan is leading all of the people who are following him, during Lent.

## A CAMPAIGN OF INTIMIDATION.

The recent outbreaks of the insurgents in Los Angeles, with their marchings and countermarchings and displays of force in the neighborhood of non-union shops, apparently are inspired by the same war-spirit which dynamited The Times building October last. The local atmosphere is full of rumors of intended violence. It is a time for the police to be unusually alert. "An ounce of prevention is worth a pound of cure." Better employ the police force in protecting the lives and possessions of citizens than in trying to hunt down the criminals after a house has been killed.

The lawbreakers and trouble-breeders are greatly encouraged by the progress of events at Sacramento where they have succeeded in getting from the Legislature measures intended to promote their game of intolerance and intimidation and by the current movements of local politicians they apparently are full of the assurance that it is their innings. They have grown particularly bold in the past week for some reason or other and seem to think they can threaten, bulldoze and maim without molestation. We believe that their assurance is unfounded. The municipal administration has shown a disposition to insist on order and to curb outbreaks of lawlessness, and the temper of this community will not stand for anything else.

It is our opinion that the menacing parades of pickets and the assaults on non-union workers in Los Angeles are a part of a campaign of attempted intimidation. The local "reds" realize that the bloody happenings on the border, besides causing a flight of alarmed Mexicans and Americans from the northern States of Mexico to this side of the line, have aroused a general feeling of dread and apprehension, such as always comes with war, and that Los Angeles is not free from this nervousness. They fancy that they can avail themselves of the general anxiety and make inroads on the franchises of local employers, and inaugurate a regime of alarm which will lead to concessions to the unions.

That is where the union agitators are making a mistake. The merchants and manufacturers of Los Angeles are not to be frightened out of the greatest asset they have—industrial independence. This is not San Francisco. The game of intimidation will not work here. The employers of this city are not cravens. No matter how many revolutionary juntas are formed here for the shipment of arms to Mexican bandits, no matter how much comfort the unions may get from Johnson and Lissner, no matter who may come to pat them on the back, they never will be able to enslave Los Angeles. They may massacre non-union workers and dynamite non-union shops, but they can neither intimidate nor overcome the manhood of this free and independent city, where nine out of every ten workmen abhor the methods of labor-unionism.

## SLAP-DASH JOURNALISM.

The socialistic "I-Won't-Work" allies of the Mexican insurgents are accusing President Taft of jingoism for policing our frontier so as to prevent violations of our neutrality laws. An inconsiderate cross-visioned writer in a New York journal, says: "Civil war is in progress in Mexico. What business is that of ours? It was not considered by us that it was any of England's business to interfere with us in our Civil War, and the Board of Arbitration at Geneva made her pay heavily for having done so."

Where was the editor of the leading New York daily when that stuff was handed in by an assine writer? Was his waste basket full? Was his starboard peduncle so afflicted with corns and bunions that he was unable to kick the man out of the office?

There has been no "civil war in Mexico" since Juarez and Maximilian battled to determine whether that country should be an empire or a republic. There are some scattered bands of bi-national cut-throats and chicken thieves in northern Mexico whose purpose is pillage, especially pillage of resident gringos. An insurrection does not become a civil war until some nation recognizes a condition of belligerence.

England did not pay \$15,000,000 for interfering in our Civil War, for she never interfered by word or deed. She might have interfered when Mason and Sillwell were taken from the deck of the Trent, if Victoria had not laid a restraining hand on Lord Palmerston and said, "You shall not lord England on the side of slavery."

England paid \$15,000,000 for not doing what President Taft is doing on the Mexican border. She paid \$15,000,000 for violating the law of nations by permitting the Alabama to sail out of Liverpool with the avowed purpose of preying upon our commerce. President Taft is guarding against a bill being presented hereafter by Mexico for damages inflicted on property in Mexico by marauders from Texas, Mexican-Americans from Arizona, hen-roost robbers from California, and I-Won't-Workers from Colorado.

Uncle Sam is not "intervening" in Mexico. He is preventing illicit and illegal intervention and the Diaz government approves of his action and is grateful for it.

## MANUFACTURING COTTON GOODS.

In the year 1880 there were in the southern States 542,000 cotton spindles and 188,000 bales of cotton were used. In 1890 there were 1,554,000 spindles and 540,000 bales of cotton were used. In 1900 the number of spindles increased to 4,300,000 and the cotton used amounted to 1,533,000 bales. In 1910 the spindles had increased to over 10,000,000 and the cotton used to 2,250,000 bales, exceeding the amount of cotton used in all the rest of the United States.

The market for these goods is almost exclusively a home market. We export less than 3 per cent. of all the exports of manufactured cotton goods in the world. China, Japan and South America buy their cotton goods in Europe where these goods are made with cheaper labor, and only a high protective tariff enables the American cotton manufacturer to retain the home market. Even with the high tariff, some cotton goods are imported into this country. Ocean freights are so low and labor is so cheap in England that the manufacturer of cotton goods in Manchester, England, can import a bale of cotton from New Orleans, make it into stockings, send the stockings to New Orleans, pay the duty on them, and sell them to be worn by the planter who raised the cotton from which they were made. This is done to a limited extent, and it

would be done to a greater extent if the tariff on cotton goods should be reduced. In the face of these statistics the South is calling for a reduction of tariff duties. The Democrats who follow Joe Bailey demand a tariff for revenue only. But it may be conjectured that when it comes to actual legislation the representatives from the cotton States will demand a reduction of tariff duties on everything except manufactures of cotton. The cotton manufacturers of the South have now reached the limit of profitable production, so far as the home market is concerned. In order to increase their product they must reach the Oriental and South American markets. In order to compete there with European-made cotton goods they must reduce the labor cost of manufacturing the goods here. In order to reduce the labor cost here they must reduce the cost of living to the laborer. In order to do this the tariff on other than cotton goods must be reduced.

## The Fat of the Land—Lady!

would be done to a greater extent if the tariff on cotton goods should be reduced.

In the face of these statistics the South is calling for a reduction of tariff duties. The Democrats who follow Joe Bailey demand a tariff for revenue only. But it may be conjectured that when it comes to actual legislation the representatives from the cotton States will demand a reduction of tariff duties on everything except manufactures of cotton. The cotton manufacturers of the South have now reached the limit of profitable production, so far as the home market is concerned. In order to increase their product they must reach the Oriental and South American markets. In order to compete there with European-made cotton goods they must reduce the labor cost of manufacturing the goods here. In order to reduce the labor cost here they must reduce the cost of living to the laborer. In order to do this the tariff on other than cotton goods must be reduced.

There we have an illustration of the fact that the tariff is a system of bargains. Each community in order to obtain protection for the articles it produces consents to give protection to other communities for the articles they produce. California votes for a tariff on Pennsylvania steel in order to obtain a tariff on citrus fruit. New England votes for a tariff on wool and on hides in order to obtain protection on shoes and on woolen shirts. Louisiana votes for a tariff on silk in order to obtain a tariff on sugar. A schedule-by-schedule revision of the tariff will insure to the advantage of the communities having the sharpest traders as representatives. A revision by substituting a revenue tariff for a protective tariff would render the garment of our prosperity into fragments.

## THE SAME OLD TUNE.

Chateaubriand said that unsettled questions have no pity for the repose of mankind. The tariff question has no pity for the repose of politicians and journalists. Other questions have come and gone—currency, coinage, State rights, slavery, internal improvements, imperialism and foreign policies are all entombed in the cemetery of the past. Their gravestones are covered with the mold of years and nobody seeks to brush them off or to decorate them with floral wreaths of remembrance.

But hostility to a Republican tariff is a ghost which, like that of Banquo, will not go down. It declines to stay in its grave like a gentleman, but insists upon walking around to save its funeral expenses.

So long as the embers glow the firemen cannot safely leave the scene of conflagration. So long as Democracy continues to attack the principle of protection to American industry so long must Republicanism continue to defend it.

When Congress meets the contest between the friends of a protective tariff and the advocates of a revenue tariff only will be renewed, and we shall hear the same old songs sung to the same old tunes.

The orators and newspaper organs of the Democratic-Insurgent combination will tell us once more that we can throw our home markets open to foreigners without danger of lessening the wages of American workmen, because the laborer who dwells under the Stars and Stripes is so much quicker and so much brighter than the foreigner that it will quite equalize the difference in wages.

This theory of the vast superiority of American workmen will not stand the wear and tear of a test. It may be conceded that the men of New England are morally, intellectually and physically superior to the men of old England, but they cannot make twice as many shoes in a week. A Democratic Congressman recently asserted that a citizen of Rhode Island can make twelve times as many dog knobs in a day as a subject of one of the effete despots of Europe. This statement needs ampler verification than is afforded by the enthusiastic rhetoric of the statesman who made it. He may have been imposed upon by some wagish free-trade member of the Aññññ Club or he may possibly have subordinated his own habitual veneration for truth to the exigencies of party demands.

When it is said that with the same kind of machinery and the same kind of tools, and working the same number of hours, the American workman can do three times as much work as the Englishman or the Frenchman or the German, The Times is apprehensive that the statement is inspired

by total mathematical depravity. It is the same sort of "bounces" that was heard fifty years ago to the effect that one southerner could whip five Yankees. It is upon a par with the kindred assumption that American inventions are used only in America when it is well known that, as a rule, American factories are as open to inspection as are our churches or our schoolhouses.

## WORDS THAT RING TRUE.

Sincerity in public speech, in written declamation, in story and drama and poetry, is the only quality to win and hold the hearts of the multitude. Without this quality the fire of eloquence is dead, the magic of diction a mere conjurer's trick, the rhythm of melodious stanzas but the tinkling of a hollow cymbal. Therefore the words of John Redmond, the great Irish leader, in his address delivered at the St. Patrick banquet in London, will be read with a quickening of the heart and a kindling of the spirit by every sentient being, not calloused with selfishness or ossified by narrow prejudice. A broader appeal for international amity, a more generous desire to close the volume of past misunderstandings, an intense patriotism was never breathed from the lips of any public speaker. "Now at last," he said to his hearers, "we meet with the light of victory shining on our country and our cause. All bitterness has left our souls. We want friendship with the English people. We want our proper place in the British empire and to bury fathoms deep in the ocean of oblivion the wrongs and oppressions of the past."

These are not the words of a malcontent or a demagogue; these are not the sentiments of revolt and rebellion. Certainly no spirit of revenge could inspire such exalted eloquence. The steel rings true and, ringing true, will strike a spark in every honest heart. We believe that a great majority of the British people desire to do justice to Ireland, the cradle of poetry and enthusiasm, whose soldiers for centuries have helped to fight the battles of the Saxon, whose brains and muscles have helped to build the fortunes of all English-speaking races. We believe that John Bull at last recognizes that the soil of Erin has more important products than rack-rents, potatoes, discontent and Parliamentary obstruction.

The late King Edward, though barred by his office from openly expressing his views, was known to be in sympathy with the cause of Ireland. What finer monument could be raised to the memory of the Peace-maker than this: that the old-time oppressors of Erin should accept in a generous spirit the olive branch held out by the Irish leader, should bury past hostilities, "fathoms deep in the ocean of oblivion" and start afresh on a new plane of mutual forbearance? After John Redmond's unequivocal declaration of loyalty, the old cry of the opponents to Home Rule can never be revived. No more can bigotry pretend to fear dismemberment of the empire by establishing an Irish Parliament on College Green. The Englishman who can hear this sentiment of good will and forgiveness from the spokesman of Erin's wrongs without responding in the same spirit of fair play must be "dull as night and his affections dark as Erebus." Should the good moment be allowed to pass, nothing but evil can result to the imperial interests of Great Britain.

## WHAT WILL NOT BE TOLD.

Gov. Johnson appointed Meyer Lissner chairman of a committee of arrangements to receive ex-President Roosevelt, and Lissner appointed about 200 of his Los Angeles friends to serve under him as committeemen. Members of the Lissner committee will surround Roosevelt during his stay here. They will encompass him round about. They will see to it that none but true and tried L. R.'s have access to him, and that no voice of criticism or detraction of the Lissners' tribe shall reach the Rooseveltian ears. They will not tell him that it was owing to the regular Republican strength being divided between three candidates for Governor that Hiram Johnson was nominated by a minority vote. They will not tell him that Johnson was elected because the old guard were too loyal either to vote the Democratic ticket or to stay away from the polls. They will not tell him that the initiative, the referendum, the recall, the direct primary, Pinchotic conservation and all the other lads, fallacies and follies of populism were—after the nominations were made—formulated into a platform by

Lissner, and were never adopted by any convention or any representatives of the mass of Republican voters. They will not tell him that Works was elected Senator in defiance of the advisory law, by a combination of cheap-shop laborites with the Lissner gang. They will not tell him that a Russian anarchist and two sand-lot anarchists have situated themselves at Sacramento this winter. They will not tell him that the great body of the Republican voters of California are opposed to the Pinchot plan of withdrawing quartz mines, homestead lands, coal lands, oil lands, water powers and water rights from location by the present generation. They will not tell him that the boss rule which the L. R. leaders claim to have eliminated from California politics, has been succeeded by a boss rule more drastic, more tyrannical and more obnoxious to the voters than that which it succeeded.

## MEN AND THINGS OVER THE SEA.

Cotton manufacturing is gradually making progress in China. A recent investigation by the Japanese Department of Agriculture and Commerce established the fact that there are now twenty-nine cotton mills in China, Shanghai, with thirteen mills, operating 580,000 spindles, being the center of the industry. Two new mills were recently completed, one at Hanchow with a capital of \$800,000, and one at Tientsin with a capital of \$375,000. The amount of cotton yarn consumed annually in China, as near as can be estimated, is 5,640,000 pounds, which, divided among the 430,000,000 people, gives only 1.3 pounds per head each year, or about one-half the amount consumed in Japan. The Chinese cotton spinners have shown marked progress, both in mechanical skill and in management, and the future of the business has quite an optimistic aspect.

Germany is a growing nation. While the population of France is at a standstill and the population of England is slowing up, that of the Kaiser's domains is forging ahead at the rate of four millions a year. This is a most remarkable display of fecundity in view of the fact that the German Empire receives comparatively insignificant contributions to its population save from natural increase, says the Baltimore American. The United States, that takes in a million a year and maintains a pretty fair rate of natural increase, cannot be touched by any other country in population progress.

The German Emperor has no fears with regard to his country's future and the continued prowess of German arms as long as the growth of the nation is proceeding at such a splendid rate. The German boy that has been alarming England is apt to become even more ferocious in the light of the statistics of the Kaiser's realm that give to Germany a population of 64,994,881.

The life of King Alfonso is not one of elegant leisure. Ordinarily he rises about 7 o'clock, and is steadily occupied until 1:30 or 2 o'clock. Mornings when he reviews troops he leaves the palace at 4. After lunch, he attends to affairs about town—opens exhibitions and banquets and performs such other social duties as devolves upon a sovereign. At 5 o'clock he plays polo or goes shooting till about 7:30, when he returns to the palace and looks over the news of the day gleaned from forty-six leading newspapers of the world. At 8:30 he dines, and in the late evening he attends to other social functions, the theater or the circus. The circus he is particularly fond of, and during the several months of the circus season in Madrid he attends regularly every Thursday night. He is as delighted with the performing horses, the trained monkeys and the tumbling clowns as any small boy in his kingdom. Anyone who knows how strenuous is the life of King Alfonso from early morning until 11 o'clock in the afternoon marvels at his strength and energy. Yet he is as delicate as a child and the newspapers that he devotes all of his time to polo playing and shooting! Without this hour or two of daily exercise he could never maintain the energetic routine of his life.

A remarkable operation is reported from the East London Hospital whereby a boy in the right side of a boy's skull was closed by using a portion of his shin bone. As a result of a fall when 18 months old the whole of the right side of the boy's skull failed to develop, and a large soft tumor formed in its place. In October last an operation disclosed that the bulging mass was formed of the normal covering of the brain distended with the cerebro-spinal fluid normally found in the ventricles of the brain and spinal cord. The distended part of the sac was cut away and the collected fluid allowed to drain off. The mouth of the sac was then stitched together, and to close the three inches in diameter gap in the skull the surgeon removed a thin layer of bone with its covering of periosteum from the little patient's leg, and placed this as a bridge across the gap. The operation was performed on December 2, and at the end of a week an examination showed that the layer of shin bone was successfully uniting with the skull by new bone growth. The boy has made a rapid recovery, and his brain appears to be undamaged.

## UNCLE WALT.

## The Post Philosopher.

When I am groaning with the grip—an ill that sorely tries me—my neighbors, in good fellowship, come over to advise me. One says I ought to take some pills to stop my coughs and sneezes; another thinks a dose of squills would cure all such diseases. One tells me I should go to bed, and drink some warm molasses. Another says: "Go, seek your head—that will dispel the gases." And every man who's sick endures this brand of mortal anguish; beneath a thousand kinds of cures he has to weep and languish. But patience still abides with him until he meets the duffer, who cries, with load and brim, vim: "You only think you suffer! Get up, get up and cease your groans, abandon this confusion! You have no aching head or bones—it's all a cheap delusion! Why have the doctor make a trip, and bring his train of nurses? There are no things like colds or grip, or sneezes, coughs or cures. Don't sit around and weep and sigh, and say things wild and woolly. Swear by me, you are well, and you'll be feeling bully!" Such language jars me to the quick, when I am weak and ailing; what fun is there in being sick, if one must quit his walling?

**Women's Muslin Gowns only \$1.50**  
**\$1.75 to \$2.50 Garments**  
Here is a most unusual chance to save money without sacrifice of quality:  
Well made; generously full lace or embroidery trimmed muslin gowns, in high or low neck, long or short sleeve styles of many sorts; all..... **\$1.50**

**OSTERMOOR MATTRESSES**  
219-229 S. BROADWAY  
**4TH FLOOR CAFE AND MEN'S GRILL—OPEN FROM 11:30 TO 5:00**

**Coulter Dry Goods Co.**  
224-228 SO. HILL ST.

**New Silks in Black**  
Kaleidoscopic in its color array is this Silk Section nowadays. Yet with all the riot of color, blacks are prominent favorites; so, word of them in detail:  
**SATIN FEUTRE**, the latest Paris creation—heavy satins for tailored suits or coats; 39-inch Lyons make..... **\$6.50**  
This in black, ivory and colors; ours exclusively.  
42-inch satin Feutre, at \$5.00 and \$8.50; black only.  
**SATIN METEOR**, in black; 40 to 50-inch widths..... **\$2.50 to \$6.00**  
**WHITE AND BLACK SILKS**, our own individual styles and weaves; 42-inch foulards, \$2.50 to \$4.00 a yard; in Jacquard effects; 42-inch width Pekin stripes.  
**SATIN DUCHESSE**, in black; the 36-inch width, \$1.25 to \$2.50; the 42-inch width..... **\$2.50 to \$6.00 a yard**  
**NEW TUB SILKS**—These in colors, of course, have the call for making into separate waists and children's dresses; 33-inch width, \$1.25; a 36-inch width at \$1.00; and a special 36-inch width at only..... **85c**.  
Another 26-inch width at..... **\$1.00 yard**  
**ORIENTAL PONGEES**, 34 inches wide, in natural colors..... **85c to \$5.00**  
Shanghai duck silks in all colors; 27 inches wide..... **85c**

**Reduced Bedding**  
This Bedding Section, already famous for splendid qualities, will be an even greater favorite with purse-wise purchasers, when such prices as these obtain on goods of standard worth:  
**SILK COVERED DOWN AND LAMBS WOOL COMFORTS** are on special sale; note the large size—6x7 feet—for your own home or for gift purposes, nothing could be more suitable; reductions of a third prevail.  
**LAMBS WOOL COMFORTS**, cambric covered; some with silk borders, now \$4 to \$8, are also specially priced.  
**AUTOMOBILE ROBES**, etc., range in price from \$5.75 to \$15.00 each.

**\$3.50 Lingerie Waists \$2.50**  
**News of Other Spring Waists**  
With separate waists more in vogue than they've been for years, this sale will meet with enthusiastic response from women who know what good waists are always to be had here:  
Spring styles of lingerie waists, fresh and new, embroidered, lace trimmed or combined lace and embroidery trimmings; lawns and batistes in dozens of patterns; very popular; \$3.50 waists for..... **\$2.50**  
**New Tub Silk Waists**  
New wash silk waists, made with Gibson pleats and breast pocket; soft French cuffs and collars..... **\$5.00**  
Pongee shirts in natural color, with yoke back and pocket; very popular, at..... **\$5.00**

**Many Answers to the Woman's Suit Problem**  
Very interesting nowadays is this Women's Suit Section, and the showing is augmented daily by new arrivals. You'll be attracted, because of the great variety and scope of the garments displayed:  
Practical suits for general wear—suits that will hold their lines, look trim and trig, and wear indefinitely, may be had, in mixtures, plain colors and white, for as little as \$22.50 and \$25.00.  
Very new and smart are the black satins, made with box or Empire or Eton coats, many of them being braided.  
And for better wear are beautiful voile suits, in black, which will give no end of good service.  
Handsome separate skirts are here, too, in plenty; dozens of good styles.

**Sale of High Class Silk Petticoats**  
All the handsome silk petticoats which we used for display purposes during the Fashion Show go on sale now at very special prices. These garments are particularly handsome, being selected with a view to displaying:  
Lace or fringe trimmed messaline petticoats in white, light blue, pink, maize, lavender, etc.  
\$20.00 Skirts for..... **\$13.50**    \$18.00 Skirts for..... **\$12.50**  
\$15.00 Skirts for..... **\$10.00**    \$12.00 Skirts for..... **\$8.00**  
Others at lower prices; all reduced.

**To Get a Genuine Ostermoor**  
with the Trade Mark shown below and the name Ostermoor in the binding, and on the end of the mattress,  
**COME TO OUR STORE!**  
That Trade Mark is a GUARANTEE of the supreme comfort and restfulness for a lifetime, without remaking or renovating. Ours too!  
Look for this

**\$30 Ostermoor Mattresses for \$18.50**  
Practically the last call on these famous mattresses at the bargain price, because our allotment is almost sold out; and we can obtain no more.  
Now we have all the different colors in tickings; the quality is the same in every Ostermoor, of course.  
Sixty-pound full-size mattresses, in one or two parts, covered with mercerized art twill ticking, roll edge and round corners; guaranteed NEVER to mat nor pack; regular catalogue price \$30.00, on special sale at..... **\$18.50**  
Ostermoor Mattresses are not experiments; they have been manufactured since 1853, and have stood the test of time. Don't buy an imitation.

**Store Service**  
It is just as important to realize that at Coulter's the SERVICE is abundantly adequate to the demands of these busy spring shopping days, as it is to know that there is here a general display of spring merchandise that it has hitherto not been our privilege to equal.  
From the spring silks, dress goods, trimmings and costumes to the new floor coverings and hangings, the store is full of the vivid appeal of the things of the moment.

**Trimming at 25c a Yard**  
Values to \$1.25 a Yd.  
Don't judge values by the price at which these smart trimmings are offered; we simply take this means of keeping stocks clean:  
Fancy colored net or silk bands, and colored hand-made braids from 1 to 3 inches wide; just what dressmakers are using this spring for dresses and coats; some of them in short lengths, others in full pieces; trimmings worth to \$1.25 a yard, for..... **25c yd.**

## MUSIC AND STAGE.

(Continued from Fifth Page.)

have a moral. But with a quizzical shrug or a twisted platitude, "Mary Jane's" nearly justifies his description of his responsibilities, and at the end proves himself so much a real man that all is forgiven. Beasley's art has been so mature, his characterizations so complete, of late, that with each new part one is inclined to say it is the best thing he has done, and then on contemplation, and "since last week." He is certainly leaving very pleasant memories of his last year in Los Angeles. Grace Travers, in the simple dresses of the strong-willed, self-sufficient Portia Perkins, is a most attractive figure. Her own strong capabilities as an actress equip her with just the exact characteristics to appreciate and thoroughly realize this charming character. And yet she appreciates the fine, motherly points of Portia as well, and her scenes with Suzanne Willis and Ollie Walters had a fine flavor of real pathos.

The production as a whole is well staged. It is one of those plays where some person who happens to be delighted to point out that lipotype slugs fall to the floor when a form of handwriting is pried, but how many of you know what that means even when you are told. The color is there, the "printer's devil" (a relic of other days, too, is sufficiently ink-smeared, and the hand press upon which the paper is turned out really works and papers come out of it by the dozen. Howard Scott is strong and convincing as Rome Presson, the candidate-author; Peter Lang is a periphrasticly ludicrous in his fur coat as the bus driver; David Landau is brisk and breezy as the actor-lover; Suzanne Willis is charming as the pouting Lucille; Ollie Walters is demure and vicious by turns as the affectionate Mary Jane; Charles Ruggles, Willis Marks, H. S. Duffield, David M. Hartford, Louise Royce, Frederick Gilbert, Ethel Von Waldron and Frank Camp most acceptably fill a number of lesser assignments.

When "Madame Sherry" makes its first bow to an audience at the Mason Openhouse tonight, it will face a large and fashionable throng. The advance sale for this attraction has been the largest of the season at this house. The cast includes the names of Oscar Pignatelli, Ann Zander, Cherish Simpson, Mary Quire, Lottie Kendall, William Cameron, Harry Benham, Harold Rehill and Edward Elias.

Lewis S. Stone and his associates at the Belasco Theater will open tonight in an elaborate production of the famous "Under Two Flags." The presentation at the Belasco of this popular drama will, it is alleged, be made on a

scale of exceptional completeness, both from the standpoint of scenic equipment and in point of costuming. "Under Two Flags" has for years been regarded as one of the standard plays of the English speaking stage and should prove an excellent vehicle for the talents of the Belasco players. Lewis S. Stone will be seen in the role of Bertie Cecil, while Marjorie Rambeau should enjoy splendid opportunities for fine acting in the role of Cigarette, which she says she has always regarded her favorite part.

Two capacity audiences yesterday greeted Ferris Hartman and his company in the opening of their twenty week in Walter De Leon's record-smashing musical comedy, "The Campus."

Nothing that the Hartman, or any other western company has ever presented during its many successful seasons, can compare in any way with the success achieved by this De Leon musical play, which is a "first effort" of this young comedian, but which has succeeded in establishing a new record for both musical and dramatic stock company runs in the United States.

Tomorrow morning, Lewis S. Stone and the members of the Belasco Company will commence rehearsals for the production of "Peace On Earth," the new play from the pen of Mr. Lawsho, which will be seen for the first time on any stage at the Belasco Theater next Monday night.

This is one of the most important of the new productions to be made at the Belasco during the coming months. "Peace On Earth" will be presented under the joint direction of Mr. McKee Rankin, known to almost every theatergoer, and William Bernard. While superintending the production, Mr. Rankin will also be seen in one of the principal roles, that of an old Kentucky sheriff, a part which gives him—says—greater opportunity for fine character work than did his Larkin Hance in "Cactus Kirby," which undoubtedly be remembered with much pleasure by all those who witnessed this play at the Mason a year ago. The cast for "Peace On Earth" will open at the Belasco this morning.

TOT'S LONG WALK.

Katie Laidie, 4 years old, the daughter of Ernest Laidie of No. 321 Omar street, thought she would like to accompany her sisters to church last evening. The service was too long for Katie, and she slipped out of church. Late in the evening Patrolman Johnson found her sitting on the curb near Winkler Park, crying bitterly for her mamma. She had walked four miles from home after losing her way. Katie was taken to the police station where her father found her, a very contrite little girl.
